ACKNOWLEDGEMENTS

It is my humble gratefulness that I record my indebtedness to Dr. G.L. Koul (Department of Applied Chemistry, Regional Engineering College, Srinagar) for the pains and interest he took in guiding and encouraging me throughout the course of present investigation.

My sincere and grateful thanks are due to Dr. C.N. Kachru (Head, Department of Chemistry, University of Kashmir), Dr. P. Kachroo (Head, Department of Botany, University of Kashmir), and Dr. B.L. Sapru (formerly of the Department of Botany, University of Kashmir) for their valuable suggestions from time to time.

I stand in considerable debt to (1) Prof. R.P. Jerath (former Head, Department of Applied Chemistry, Regional Engineering College, Srinagar), Dr. Ram Murti (Head, Department of Applied Chemistry, Regional Engineering College, Srinagar) (2) Dr. C.K. Atal, Dr. K.L. Dhar, and Shri H. Singh (Regional Research Laboratory, Jammu)
(3) Shri R. Murthy and Shri R. L. Misri (Department of Civil Engineering, Regional Engineering College, Srinagar) for providing various laboratory facilities, other aids, and valuable advice.

I am highly obliged to Prof. G. L. Labru and Dr. T. N. Dhar (Department of Humanities and Social Sciences, Regional Engineering College, Srinagar) for reading through the various chapters of the thesis and making valuable comments and criticism.

I am also thankful to the University Grants Commission, New Delhi, for providing financial assistance.

Last, but not least, my thanks are also due to Mr. M. I. Daraz for typing out the manuscript with patience and care.

Department of Applied Chemistry, (T. K. Razdan) Regional Engineering College, Hazratbal, Srinagar — 190006.
