I make use of this opportunity to acknowledge with deep sense of gratitude the guidance extended to me by Dr. Sabu Thomas, Reader, School of Chemical Sciences, Mahatma Gandhi University, Kottayam and Dr. N.M. Mathew, Joint director, Rubber Research Institute of India, Kottayam. Their valuable comments and suggestions in the preparation of this thesis and inspiring guidance throughout the period of work are gratefully acknowledged.

I also acknowledge with thanks Dr. M.R.Sethuraj, Director, Rubber Research Institute of India and Prof. V.N.Rajasekharan Pillai, former Director, School of Chemical Sciences, M.G.University, Kottayam for their valuable instructions during the course of the work.

My sincere thanks are also due to Prof. J.C.Brosse and Dr. Daniel Derouet Universite du Maine, Le Mans, France and Guy Boccacio and Dr. Jan Paul Villete, Institute Recherche Applique sur les polymers for guidance and help for the work on the phosphorus modification of natural rubber.

I owe a great deal to Dr. Someswara Rao and Dr. S.S.Bhagawan, Propellant Engineering Division, Vikram Sarabhai Space Centre, Thiruvananthapuram and Dr. Prabha Chatterjee, Indian Institute of Chemical Technology, Hyderabad for permitting me to avail the facilities for viscosity measurement.

I am very much indebted to my family members for their unwavering moral support.

Finally I convey my thanks to all my friends and well-wishers who helped me in this endeavour.

Radhakrishnan Nair N
