

Acknowledgement

I take this opportunity to thank and articulate my admired respect and indebtedness to my guide **Prof. V. M. Pathak** for his precious suggestions, inspiring spirits, kindheartedness, extensive guidance, constant encouragement and constructive criticism in course of present investigation and for a critical review during the entire research work. His guidance has made this thesis a realistically complete piece of work. It was a valuable experience to work with and learn so many things from him both as a GURU and as a loving human being. It has been great pleasure and I really enjoyed working with him. I would very thank full to **Prof. K. D. Patel** for their constant encouragement to words research and providing great support by means of experimental ideas. I would like to express my gratitude to **Prof. R. Srivastava and Dr. G. K. Solanki**, for their keen interest in my research investigations and valuable discussions.

I would like to thank **Prof. U.H. Patel**, Head, Department of Physics for providing me all necessary help required to complete my research work and allowing me to utilize the experimental facilities available in the Department. I extend my sincere thanks to **Prof A. R. Jani** and **Prof K. N. Joshipura**, Former Head, Department of Physics for allowing me to use the facilities. I also thank the authorities of Sardar Patel University for granting me necessary permission to carry out my research work. I extend my sense of veneration to all the all professors, teaching and non-teaching members of the department who have supported me directly or indirectly at various stages of my work.

The help received from **SICART** (Sophisticated Instrumentation Centre for Applied Research and Technology), **Dr. K. C. Patel R & D center (KRADLE)**, Changa and **USIC** (University Science and Instrumentation Centre) is gratefully acknowledged.

Word “thanks” seems to be very small for all the friends Mihir, Vijay, Abhishek, Chetan, Pratik, Alkesh, Mohit, Ankur, Payal, Kunjal, Keyur Chaitany, Shalil,

Jolly and Megha for keeping my enthusiasm for the work alive and being the source of positive energy.

The present work certainly would not have been possible, if I had not been blessed with the environment of love, joy, understanding and faith created so generously by my parents Dr. Upendrabhai Vyas and Mrs. Smitaben Vyas. Special thanks to my wife Megha, for always being with me in any situation. I am also thankful to my kid Kanth for being force for my life. I not to forget expressed thanks to my sister Rani and brother in law Mr. Kunjesh Joshi for encouraging and motivating me for research. Sincere thanks for the blessings of my grandparents.
