ACKNOWLEDGEMENTS

Acknowledgement of the favour received and privilages enjoyed is not simply a matter of going through a time honoured ritual. It is having the pleasure and satisfaction of discharging various debts of gratitude. But I am finding scarcity of words to express my gratitude to them. Gratitude and sincerity resemble a space too much repel you and too little leave you wishing. Yet fact must be evidently acknowledged and honest thankfulness unequivocally stated. This is what I have humbly attempted to do here.

It was my proud privilage to have been associated with and remain under the constant vigilance of Dr. P.K. Dabral, M.S., Professor and Head of the Department of Orthopaedics, M.L.B. Medical College, Jhansi, throughout the period of my working on this thesis. His fatherly attitude, affectionate nature and heartwarming words constantly provided the confidence and enthusiasm so essentially vital to such project. His invaluable suggestions, constructive criticisms, meticulous attention to details and never to be matched expertise has been primarily, if not singularly, responsible for presentation of this work in its present form. I find myself personally indebted to him.
My gratitude knows no bound when I speak of
Dr. Anurag, M.S., Lecturer, Department of Orthopaedics,
M.L.B. Medical College, Jhansi. His deep knowledge to the
subject and masterly guidance, set the trend and pace for
this work. I am grateful to him for his constant suggestions
and encouragements he has given to me from time to time.
He has been too kind to help me, even at his personal
inconvenience at every stage of this work.

My feeling of sincere gratefulness are due to
my esteemed teacher Dr. R.P. Tripathi, M.S., Reader,
Department of Orthopaedics, M.L.B. Medical College, Jhansi.
He has been a constant source of encouragement and guidance
in moments of my despair and it is virtually impossible
to express in words my deep sense of indebtedness and
profound gratitude for him.

My sincere thanks are due to Dr. D.K. Gupta, M.S.,
Lecturer in Orthopaedic Department, M.L.B. Medical College,
Jhansi, for his guidance, valuable advice and helping me to
solve out my problems whenever I was in difficulty.

I am also indebted to all consultants and residents
of Department of Anaesthesiology, for their co-operation
and help in the study.

I am thankful to my departmental colleagues,
seniors and juniors, especially Dr. Anurag Sain, M.S.
I owe my sincere thanks to Mr. V. Lal, Librarian, Central Library, M.L.B. Medical College, Jhansi. He was always at his toes to provide me help in library at all times.

I am greatly indebted to whole of the Orthopaedic surgery, O.T. staff members, especially Sister Shyamala for her co-operation.

I thank to all my friends whose co-operation was a constant source of inspiration for me.

The back breaking and highly skilled work of typing was done by Mr. K.M. Thomas. He executed great speed without sacrificing accuracy. He needs special mention for his co-operation and excellence.

Last but not the least, I am highly indebted to my mother, for her affection, inspiration and encouragement she has given to me from my birth.
