ACKNOWLEDGEMENT

Acknowledgement of the favours received is not simply a matter of going through a time honoured ritual. It is having the pleasure and satisfaction of discharging various debts of gratitude. I am sure I can never manage to bring forth my sincere gratitude, towards all, who have meant so much in the formation of this project. Yet I shall try.

I consider it a proud privilege to express with a deep sense of gratitude, my indebtedness to my guide Dr. R.S. Sethi, MD, DCH, Assistant Professor, Department of Paediatrics, M.L.B. Medical College, Jhansi for the untiring help, able guidance, valuable suggestions and for the careful supervision provided by him during the entire period of study. Things I have learnt from him will help throughout my career. He was always a source of inspiration especially during times when my confidence was a low ebb.

To my esteemed and learned teacher Prof. Ramesh Kumar, MD, DCH, Head, Department of Paediatrics, M.L.B. Medical College, Jhansi for whom my reverence has always been its zenith. His incisiveness uncompromising principles,
fatherly attitude and meticulous attention have gone a long way towards the success of this work. I shall consider it as my life's greatest achievement, that the God has bestowed upon me to worked under him.

I feel a sense of deep obligation towards my Co-guide Dr. Ratna, MD, Assistant Professor, Department of Pathology, for excellent guidance and unlimited help at every juncture, her meticulous suggestions have gone a long way in the accomplishment of this task.

Dr. (Smt.) Sheela Longia, MD, Associate Professor, Department of Paediatrics was a picture of affection and encouragement & has always been a wise counsel ever-ready to patch the chinks in armour with her suggestions and critical comments. I shall always remain grateful to her.

I express my sincere gratitude to Dr. Anil Kaushik, MD, Assistant Professor, Department of Paediatrics. His friendly behaviour, eagerness to help and his wide expertise will be always remembered.

I am grateful to Dr. R.K. Agarwal, MD, Associate Professor & Head, Department of Microbiology. He always extended his helping hand even during his busy schedules. His humanitarian attitude and helpful nature need a special mention.
My acknowledgements are due to Dr. B.L. Verma, Ph.D., Associate Professor, Department of Social and Preventive Medicine, who provided me with all the necessary guidance in solving the complicated statistics, which immensely helped in the fruitful culmination of the project.

To all my friends and colleagues, who helped me to sustain my enthusiasm against all odds, I shall always remain extremely grateful.

Mr. R.S. Vishwakarma deserves a special thanks for carrying out this arduous task of typing accurate copies of the manuscript and performing the work skillfully, speedily and cheerfully.

I do not find words, to apologise for the pain and trauma caused to the innocent, little wonderfull creatures of Almighty during the study.

All my capabilities and efforts are attributed to the motivation and inspiration provided by the love and affection of my sister and brother-in-law.

My obeisance shall remain due to my mother throughout my life, for it is due to her kind blessings and enormous amount of courage which have catapulted me to this present status.
Finally, I am emotionally overwhelmed to dedicate the present work to the memory of my father late Sh. S.K. Saxena, whose radiant personality, edifice of character and unswerving dedication, have left indelible impressions over canvas of my mind.
