To begin with the idea of conceptualising a topic and converting it valuable enough for a Ph.D. was a difficult task. But the tone was set by revered guide, Dr. R.K Saxena, Professor and Director of Institute of management, Bundelkhand University, Jhansi. Without the proper guidance and empowerment on freethinking by my supervisor it would have been then a very difficult task, as his guidance was always handy and whenever required. I owe him a lot for considering me as his student.

I express my sincere thanks to my colleagues at C.S.E. Jhansi, and J.I.M., Ghaziabad who helped me on and off whenever required, whether it was a moral support or hunt for data. I owe a deep sense of gratitude to Prof. R.P. Das for encouragement to undertake this thesis. The credit for converting my typed hand notes into a presentable format goes to the Mr. Ajay Gangele, Mr. Ashutosh Agarwal and Mr. K.K. Bhatia, who helped me in making graphs also. The credit for statistical analysis of my data with the help of modern statistical software goes to the Dr. Ajeet, Sr. Scientist of National Research center for agro forestry (NRCAF), Jhansi. There are many more in the staff whom I would like to thank for all their kind assistance in making this Thesis a real success. My friends & colleague Mr. Amit Jain, Dr. Dheeraj, Er. Yadviveer & Er. Ritesh will also get the credit for their moral & other supports.

My thanks are due to authorities of Bundelkhand University, Jhansi and the Director General of Jaipuria Institute of Management, Ghaziabad, Major General (Dr.) Madan Lal Madan & Shri S.K. Rai, Chairman, C.S.E., Jhansi for giving me opportunity, encouragement & support to conduct this research work.
