ACKNOWLEDGEMENT

The most pleasant duty in a work like this is to remember my obligations to all those, who have made its completion possible.

I consider, it a privilege to express with a deep sense of gratitude, my indebtedness to my guide, Dr. Amil Kumar Kaushik, M.D., Lecturer, Department of Pediatrics, M.L.B. Medical College, Jhansi for the untiring help, able guidance, constant encouragement and supervision provided by him during the entire period of this study. His timely suggestions and his dedication to provide me with every opportunity to learn the subject, has not only been a help in my thesis but a memory that would be everlasting.

I express my deepest regards to Hon'ble Dr. Ramesh Kumar, MD, DCH, Professor & Head, Department of Pediatrics, M.L.B. Medical College, Jhansi, whose generousness and ever patronising attitude had always been and will ever be a source of encouragement for me.

I am deeply indebted to Dr. Praveen Kumar, MD, D. Card, DM (Card.), Lecturer in Cardiology, Department of Medicine, M.L.B. Medical College, Jhansi, who had been my Co-guide in this project. Without his help this work would have never attained the present shape. He always extended
his helping hand even during most busy periods. His masterly decisions, depth of knowledge and sense of humour impressed me much.

I don't find the words to convey my sincere regards to Dr. (Mrs.) Sheila Longia, MD, Associate Professor, Department of Pediatrics, M.L.B. Medical College, Jhansi whose co-operative and sympathetic attitude had always helped to boost-up my morale throughout the period. Her valuable suggestions and helpful nature has cast an indelible impression over my mind.

I would also like to thank Dr. R.S. Sethi, MD, BCH, Lecturer, Department of Pediatrics, M.L.B. Medical College, Jhansi, who was always ready to help me at any odd hours of his life. His pleasing approach and sense of constructive criticism were overwhelming.

I extend my thanks to all my colleagues for their constant help and affection.

I gratefully acknowledge the undefinable help and support extended to due by my husband, who lend me great strength and will to complete this work.

I find no words to express my thankfulness to those little, wonderful, innocent creatures of Almighty, who taught me the science of Pediatric Medicine.
I am also thankful to Mr. R.S. Vishwakarma for his meticulous care and painstaking labour in preparing type script of the present work.
