ACKNOWLEDGEMENT

I express my wholehearted gratitude and my indebtedness to Dr. K. S. Dersanambika, my supervisor and Associate Professor of Mathematics, Fatima Mata National College, Kollam for her constant encouragement and guidance given throughout my research work.

I express my thanks to the Mahatma Gandhi University, Kottayam for allowing me to do my research under the Faculty of Science.

I am deeply indebted to my employer, Manager, Mar Thoma College, Tiruvalla for giving me necessary permissions to do the research work and for giving timely sanctions and help as and when needed in pursuing my research throughout the period.

I express my deep gratitude to the Principals of Mar Thoma College, Tiruvalla for their constant encouragement and necessary permission and help during the course of my study. I am deeply indebted to the Heads of Mathematics Department, Mar Thoma College, Tiruvalla and my colleagues of the Department of Mathematics for their whole hearted encouragement, guidance and limitless support given to me throughout the period.

I thank all my fellow researchers and my special thanks to Mrs. Aswathy M R and Mrs. Sujathakumari for all help and support given to me during the course of the work.

I express my gratitude to all friends, non – teaching staff of my college and my family members for giving me all help during the course of study. I thank everybody who helped me to overcome the difficulties that I encountered during this period.
