</table>
4.21 Grade wise Percentile norms for scores on poetic Diction for Language Creativity Test
4.22 Grade wise Percentile norms for scores on Descriptive style for Language Creativity Test
4.23 Grade wise Percentile norms for scores on Vocabulary Test for Language Creativity Test
4.24 Grade wise Percentile norms for scores on Total Creativity for Language Creativity Test
4.25 Details of item analysis for Language Interest Inventory
4.26 Percentile Norms for the Language Interest Inventory in English
5.1 Descriptive statistics for Pre-test scores of total Achievement in English under different Models
5.2 Descriptive statistics for Post-test scores of total Achievement in English under different Models
5.3 Summary of Two-way ANOVA of pre-test and post-test scores of total Achievement in experimental and control groups taken separately
5.4 Summary of ANCOVA of pre-test and post-test scores of students in Experimental and control groups
5.5 Data of adjusted means of post-test scores of students at Secondary level treated with AOM and AM
5.6 Data of adjusted means of post-test scores of Achievement in English of students at Secondary level treated with SM and AM
5.7 Data for adjusted means of post-test scores of Achievement in English of students at Secondary level treated with ITM and AM
5.8 Data of adjusted means of post-test scores of Achievement in English of students at Secondary level treated with IPM-c and AM
5.9 Means of post test scores of Achievement in English for Experimental and control groups for relevant sub samples based on gender of students, locality and type of management of schools treated with selected Information Processing Models (individual and combined) and Activity Oriented Method

5.10 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with AOM and AM for sub-sample based on gender

5.11 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and AM for the sub-sample based on gender

5.12 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.13 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with SM and AM for sub-sample based on gender

5.14 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with SM and AM for the sub-sample based on gender

5.15 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.16 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with ITM and AM for sub-sample based on gender

5.17 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with ITM and AM for the sub-sample based on gender

5.18 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and AM for sub-sample based on gender

5.19 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and AM for sub-sample based on gender
5.20 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.21 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with AOM and AM for sub-sample based on management of school

5.22 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and AM for sub-sample based on management of school

5.23 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with SM and AM for sub-sample based on management of school

5.24 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with SM and AM for sub-sample based on management of school

5.25 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.26 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with ITM and AM for sub-sample based on management of school

5.27 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with ITM and AM for sub-sample based on management of school

5.28 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.29 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and AM for sub sample based on management of school.

5.30 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and AM for sub sample based on management of school

5.31 Mean difference between groups and its level of significance for post-test scores of Achievement in English
5.32 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with AOM and AM for the sub-sample based on locality of schools

5.33 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and AM for the sub-sample based on locality of school

5.34 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with SM and AM for the sub-sample based on locality of schools

5.35 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with SM and AM for the sub-sample based on locality of school

5.36 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.37 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with ITM and AM for sub-sample based on locality of school

5.38 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with ITM and AM for the sub-sample based on locality of school

5.39 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.40 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and AM for sub-sample based on locality of school

5.41 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and AM for the sub-sample based on locality of school

5.42 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.43 Data of adjusted means of post-test scores of students treated under the Models AOM and SM
5.44 Data of adjusted means of post-test scores of students treated under the Models AOM and ITM 177
5.45 Data of adjusted means of post-test scores of students treated under the Models SM and ITM 177
5.46 Summary of Two-way ANOVA of pre-test scores on Achievement in English of students treated with AOM and SM for the sub-sample based on gender 178
5.47 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and SM for sub-sample based on gender 179
5.48 Mean difference between groups and its level of significance for post-test scores of Achievement in English 181
5.49 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with AOM and ITM for sub-sample based on gender 182
5.50 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and ITM for sub-sample based on gender 183
5.51 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with SM and ITM for the sub-sample based on gender 184
5.52 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with SM and ITM for sub-sample based on gender 185
5.53 Mean difference between groups and its level of significance for post-test scores of Achievement in English 186
5.54 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with AOM and SM for sub-sample based on management of school 187
5.55 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and SM for sub-sample based on management of school 188
| 5.56 | Mean difference between groups and its level of significance for post-test scores of Achievement in English | 190 |
| 5.57 | Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with AOM and ITM for sub-sample based on management of school | 191 |
| 5.58 | Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and ITM for sub-sample based on management of school | 192 |
| 5.59 | Mean difference between groups and its level of significance for post-test scores of Achievement in English | 193 |
| 5.60 | Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with SM and ITM for sub-sample based on management of school | 194 |
| 5.61 | Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with SM and ITM for sub-sample based on management of school | 195 |
| 5.62 | Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with AOM and SM for sub-sample based on locality of school | 197 |
| 5.63 | Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and SM for sub-sample based on locality of school | 198 |
| 5.64 | Mean difference between groups and its level of significance for post-test scores of Achievement in English | 199 |
| 5.65 | Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with AOM and ITM for sub-sample based on locality of school | 200 |
| 5.66 | Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with AOM and ITM for sub-sample based on locality of school | 201 |
| 5.67 | Mean difference between groups and its level of significance for post-test scores of Achievement in English | 202 |
5.68 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with SM and ITM for sub-sample based on locality of school

5.69 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with SM and ITM for sub-sample based on locality of school

5.70 Data of adjusted means of post-test scores of students treated under the Models AOM and IPM-c

5.71 Data of adjusted means of post-test scores of students treated under SM and IPM-c

5.72 Data of adjusted means of post-test scores of students treated under the Models ITM and IPM-c

5.73 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and AOM for sub-sample based on gender of students

5.74 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and AOM for sub-sample based on gender

5.75 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and SM for sub-sample based on gender of students

5.76 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and SM for sub-sample based on gender

5.77 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and ITM for sub-sample based on gender

5.78 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and ITM for sub-sample based on gender

5.79 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and AOM for sub-sample based on management of school
| 5.80 | Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and AOM for sub-sample based on management of school | 217 |
| 5.81 | Mean difference between groups and its level of significance for post-test scores of Achievement in English | 218 |
| 5.82 | Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and SM for sub-sample based on management of school | 219 |
| 5.83 | Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and SM for sub-sample based on management of school | 220 |
| 5.84 | Mean difference between groups and its level of significance for post-test scores of Achievement in English | 221 |
| 5.85 | Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and ITM for sub-sample based on management of school | 222 |
| 5.86 | Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and ITM for sub-sample based on management of school | 223 |
| 5.87 | Mean difference between groups and its level of significance for post-test scores of Achievement in English | 225 |
| 5.88 | Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and AOM for sub-sample based on locality of school | 226 |
| 5.89 | Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and AOM for sub-sample based on locality of school | 227 |
| 5.90 | Mean difference between groups and its level of significance for post-test scores of Achievement in English | 229 |
| 5.91 | Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and SM for sub-sample based on locality of school | 230 |
5.92 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and SM for sub-sample based on locality

5.93 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.94 Summary of Two-way ANOVA of pre-test scores of Achievement in English of students treated with IPM-c and ITM for sub-sample based on locality of school

5.95 Summary of Two-way ANOVA of post-test scores of Achievement in English of students treated with IPM-c and ITM for sub-sample based on locality of school

5.96 Mean difference between groups and its level of significance for post-test scores of Achievement in English

5.97 Descriptive statistics for Pre-test scores of Achievement in English under the category of objective Knowledge treated using different Models

5.98 Descriptive statistics for post-test scores of Achievement in English under the category of objective Knowledge of students at Secondary level treated under different Models

5.99 Summary of Two-way ANOVA of pre-test and post-test scores of Achievement in English under the category of objective Knowledge in experimental and control groups taken separately

5.100 Summary of ANCOVA of pre-test and post-test scores of students in Experimental and control groups

5.101 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students at Secondary level treated under AOM and AM

5.102 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students at Secondary level treated under SM and AM

5.103 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students at Secondary level treated under ITM and AM
5.104 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students at Secondary level treated under IPM-c and AM

5.105 Descriptive statistics for Pre-test scores of Achievement in English under the category of objective Comprehension of students at Secondary level treated under different Models

5.106 Descriptive statistics for Post-test scores of Achievement in English under the category of objective Comprehension of students at Secondary level treated under different Models

5.107 Summary of Two-way ANOVA of pre-test and post-test scores of Achievement in English under the category of objective Comprehension in experimental and control groups taken separately

5.108 Summary of ANCOVA of pre-test and post-test scores of Achievement in English under the category of objective Comprehension of students in Experimental and control groups

5.109 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students at Secondary level treated under AOM and AM

5.110 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students at Secondary level treated under SM and AM

5.111 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students at Secondary level treated under ITM and AM

5.112 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students treated under IPM-c and AM

5.113 Descriptive statistics for Pre-test scores of Achievement in English under the category of objective Application of students treated under different Models
5.114 Descriptive statistics for post-test scores of Achievement in English under the category of objective Application of students under different Models 262

5.115 Summary of Two-way ANOVA of pre-test and post-test scores of Achievement in English under the category of objective Application in experimental and control groups taken separately 265

5.116 Summary of ANCOVA of pre-test and post-test scores of Achievement in English under the category of objective Application of students in Experimental and control groups 266

5.117 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated under AOM and AM 267

5.118 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated under SM and AM 267

5.119 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students at Secondary level treated under ITM and AM 268

5.120 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated under IPM-c and AM 269

5.121 Descriptive statistics for pre-test scores of Achievement in English under the category of objective Analysis of students under different Models 270

5.122 Descriptive statistics for Post-test scores of Achievement in English under the category of objective Analysis of students under different Models 273

5.123 Summary of Two-way ANOVA of pre-test and post-test scores of Achievement in English under the category of objective Analysis in experimental and control groups taken separately 276
Summary of ANCOVA of pre-test and post-test scores of Achievement in English under the category of objective Analysis of students in Experimental and control groups

Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated under AOM and AM

Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated under SM and AM

Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated with ITM and AM

Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated under AOM and AM

Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students at Secondary level treated under AM and IPM-c

Descriptive statistics for Pre-test scores of Achievement in English under the category of objective Synthesis of students under different Models

Descriptive statistics for Post-test scores of Achievement in English under the category of objective Synthesis of students treated with different Models

Summary of Two-way ANOVA of pre-test and post-test scores of Achievement in English under the category of objective Synthesis of students in experimental and control groups taken separately

Summary of ANCOVA of pre-test and post-test scores of Achievement in English under the category of objective Synthesis of students in experimental and control groups

Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under AOM and AM

Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under SM and AM
5.135 Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under ITM and AM

5.136 Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under IPM-c and AM

5.137 Descriptive statistics for Pre-test scores of Achievement in English under the category of objective Evaluation of students treated under different Models

5.138 Descriptive statistics for Post-test scores of Achievement in English under the category of objective Evaluation of students under different Models

5.139 Summary of Two-way ANOVA of pre-test and post-test scores of Achievement in English under the category of objective Evaluation of students in experimental and control groups taken separately

5.140 Summary of ANCOVA of pre-test and post-test scores of Achievement in English under the category of objective Evaluation of students in Experimental and control groups

5.141 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated under AOM and AM

5.142 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated under SM and AM

5.143 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated under ITM and AM

5.144 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated with IPM-c and AM

5.145 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students treated with the Models AOM and SM
5.146 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students treated with AOM and ITM

5.147 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students treated with SM and ITM

5.148 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students treated with AOM and SM

5.149 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students treated with AOM and ITM

5.150 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students treated with SM and ITM

5.151 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated with AOM and SM

5.152 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated with AOM and ITM

5.153 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated with SM and ITM

5.154 Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated with AOM and SM

5.155 Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated with AOM and ITM

5.156 Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated under SM and ITM
5.157 Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under AOM and SM

5.158 Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under AOM and ITM

5.159 Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under SM and ITM

5.160 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated under AOM and SM

5.161 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated with AOM and ITM

5.162 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated under SM and ITM

5.163 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students treated under AOM and IPM-c

5.164 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students treated under SM and IPM-c

5.165 Data of adjusted means of post-test scores of Achievement in English under the category of objective Knowledge of students treated with ITM and IPM-c

5.166 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students treated under AOM and IPM-c

5.167 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students treated under SM and IPM-c
5.168 Data of adjusted means of post-test scores of Achievement in English under the category of objective Comprehension of students treated under ITM and IPM-c

5.169 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated under AOM and IPM-c

5.170 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated under SM and IPM-c

5.171 Data of adjusted means of post-test scores of Achievement in English under the category of objective Application of students treated under ITM and IPM-c

5.172 Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated under AOM and IPM-c

5.173 Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated under SM and IPM-c

5.174 Data of adjusted means of post-test scores of Achievement in English under the category of objective Analysis of students treated under ITM and IPM-c

5.175 Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under AOM and IPM-c

5.176 Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under SM and Mixed IPM

5.177 Data of adjusted means of post-test scores of Achievement in English under the category of objective Synthesis of students treated under ITM and IPM-c

5.178 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated under AOM and IPM-c
5.179 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated under SM and IPM-c

5.180 Data of adjusted means of post-test scores of Achievement in English under the category of objective Evaluation of students treated under ITM and IPM-c

5.181 Descriptive statistics for Pre-test scores of Language Creativity in English under different Models

5.182 Descriptive statistics for Post-test scores of Language Creativity in English under different Models

5.183 Summary of Two-way ANOVA of pre-test and post-test scores of Language Creativity in experimental and control groups taken separately.

5.184 Summary of ANCOVA of pre-test and post-test scores of students in Experimental and control groups

5.185 Data of adjusted means of post-test scores of Language Creativity in English of students treated under AOM and AM

5.186 Data of adjusted means of post-test scores of Language Creativity in English of students treated under SM and AM

5.187 Data of adjusted means of post-test scores of Language Creativity in English of students treated under ITM and AM

5.188 Data of adjusted means of post-test scores of Language Creativity in English of students treated under AM and IPM-c

5.189 Data of adjusted means of post-test scores of Language Creativity in English of students treated under AOM and SM

5.190 Data of adjusted means of post-test scores of Language Creativity in English of students treated under AOM and ITM

5.191 Data of adjusted means of post-test scores of Language Creativity in English of students treated under SM and ITM

5.192 Data of adjusted means of post-test scores of Language Creativity in English of students treated under AOM and IPM-c

xxiii
5.193 Data of adjusted means of post-test scores of Language Creativity in English of students treated under SM and IPM-c 352
5.194 Data of adjusted means of post-test scores of Language Creativity in English of students treated under ITM and IPM-c 352
5.195 Descriptive statistics for Pre-test scores of Language Interest in English under different Models 355
5.196 Descriptive statistics for Post-test scores of Language Interest in English under different Models 357
5.197 Summary of Two-way ANOVA of pre-test and post-test scores of Language Interest in English of students in experimental and control groups taken separately 360
5.198 Summary of ANCOVA of pre-test and post-test scores of students in Experimental and control groups 360
5.199 Data of adjusted means of post-test scores of Language Interest in English of students treated under the Models AOM and AM 361
5.200 Data of adjusted means of post-test scores of Language Interest in English of students treated with SM and AM 362
5.201 Data of adjusted means of post-test scores of Language Interest in English of students treated under ITM and AM 362
5.202 Data of adjusted means of post-test scores of Language Interest in English of students treated under IPM-c and AM 363
5.203 Data of adjusted means of post-test scores of Language Interest in English of students treated under AOM and SM 364
