ACKNOWLEDGEMENT

Research is a difficult task which needs encouragement, hardwork and help of different persons which I got in ample measure. I would be lacking in gratitude if I do not express my thanks to all those who have contributed to the completion of this work.

I hereby feel that this precious work of my life could be completed in a satisfactory manner because of my esteemed teacher and guide Dr. (Mrs.) Veena Bansal (Former Head of the Dept of R.G. (P.G.) College, Meerut. I express my deep sense of gratitude to her for her inspiring and valuable guidance and critically examining and shaping the manuscript. Inspite of enormous academic preoccupation, it is only because of her sincere efforts that I could complete this work.

However I would be failing in my duties, if I do not thank Prof. Maharaj Singh (C.C.S. University, Meerut) not only for his continuous help in analysing the data but also for extending useful suggestions at all stages. I am also thankful to the teaching staff of R.G. (P.G.) College, Meerut for providing scholarly and valuable suggestions.

I am truely thankful to my respected father (Late) Mr. S.K. Saxena for his constant encouragement to continue my academic pursuits and had he been alive he would have been extremely happy on the completion of this work.
Inestimable is my gratitude to my affectionate mother Mrs. Suman Saxena who has always been a constant source of inspiration. She will be a proud person to see this work of mine.

I would also like to express my thanks to my brother Rajeev and Prashant and my sister Prateeksha for boosting my courage at every step.

It would have been an impossible task to complete this thesis without the co-operation of my uncle. Dr. S.N. Gurha (Principal Scientist-Indian Institute of Pulses Research, Kanpur). I am grateful to him for his encouragement, blessings and providing all the facilities which helped me to complete this task.

I would like to express my thanks to my uncle Dr. Parmesh Chandra (Rtd Joint Director, Ministry of Defence New Delhi) who always gave me affection and guidance like a father to complete this stupendous task.

My thanks are also due to Dr. P.S. Pandey (Senior Scientist in I.C.A.R., Modipuram, Meerut) for his help.

I am also thankful to my friends Mala and Shilpi for their encouragement.

I am also thankful for the help given by the librarians of such distinguished libraries as American Center (New Delhi), British Council and Defense Psychological Research Institute at New Delhi.

I am also thankful to all those students who had acted as subjects for data collection. My thanks to all the Principals of those colleges where I collected the data.
I am thankful to Mr. M. Shoaib for his help in computer work and typing the manuscript very patiently and efficiently.

It is not the lack of sense of gratitude but the space constraint which restricts me in thanking them individually by name. To all of them, I am much indebted and cannot forget their valuable support.
