ACKNOWLEDGEMENTS

On the eve of new millennium, at very first I owe my deep sense of gratitude to my guide Dr. R. P. Singh and Co-guide Dr. S. P Singh whose inspiration and guidance were basis for the completion of this research work. The study owes much of their encouragement, dedicated efforts and ceaseless patience. For all their help and guidance, I am greatly indebted to both.

Apart from them, a series of academicians and well wishers are who have provided me their proper guidelines. Prof. Ranjeet Singh, Faizabad, Dr. R. N. Singh, Ghazipur, Dr. Girishwar Mishra, Delhi, Late Dr. T. S. Dhapola, Varanasi, and many other signatories provide their academic co-operation. Many other Psychologists, sociologists and other disciplinary experts specially Dr. S. R. Naik, Dr. G. Chaudhuri, Dr. V. A. Saraswat, Dr. Hem Chandra, Dr. R. P. Singh and Dr. R. P. Mishra have a high place in my heart. Empiricall studies can never complete without data collection, so a lot of thanks to institutional heads and students who have given their assistance in data collection.

In final paraphrase, I reciprocate my thanks to my colleagues who have always motivated me for the completion of this task. My parental line is a grassroot and personnel family members as support roots are in such a position that credit goes to them for completion of this task too. Again thanks to those all who helped , co-operated and inspired me.
