Acknowledgement

I would like to express my deep sense of gratitude to Dr. Devashish Sen (my mentor and Guide) for giving me the opportunity to work in an excellent and stimulating academic environment of erstwhile Presidency College and now Presidency University, Kolkata. He was always available to clarify my doubts despite his busy schedules and I consider it as a great opportunity to do my doctoral programme under his guidance and to learn from his research expertise. I solemnly submit my honest and humble thanks to him for bringing my dreams into reality. Thank you Sir, for your each and every help and support.

I would also like to thank, Prof. G.G. Roy of Industrial Designing Centre, IIT, Bombay for providing the facilities to carry out the research work in his institute. I am always grateful to him for sharing his incomparably profound knowledge, deepening my understanding of subject and for always cheering me up to face new challenges. A person with an amicable and positive disposition guided me at each and every step.

My Special acknowledgement to the Department of Science and Technology (DST), Govt. of India for their financial support which made this research work achievable.

My sincere thanks to Dr. A. Samanta of formerly of All India Institute of Hygiene and Public Health; Dr. Alak K. S亚马al and Dr. Subrata Ghosh of erstwhile Presidency College and now of Hooghly Mohosin College; Dr. Prabir Kumar Mukhopadhyay of Department of Life Sciences, Presidency University, Kolkata for their encouragement and valuable suggestions during critical situations.

My acknowledgement will never be complete without the special mention of my lab scholars Bibaswan Basu, Prasenjit Saha at Presidency University and Amar Kundu at IIT, Bombay who were always been there with a helping hand throughout the period of my work. I would like to take this opportunity to acknowledge the role of non teaching staffs of Presidency College Susanta Roy, Tushar K Chakraborty, Shyamal Kanti Singha, Santosh Singh for providing lively environment for me while working at the Institute.

Thanks would be a very small word to express my gratitude to those who volunteered as subjects in this study. Without their cooperation this work would not have seen this light of the day. I take this opportunity to thanks the owner of the brick field who allowed me to work in their premises.
To the end, I express my deepest sense of gratitude to my family members specially Maa and Baba who always provided major inspiration and silent support to my whole academic career. I thank all those who have helped me directly or indirectly in the successful completion of my thesis. Anyone missed in this acknowledgement are also thanked.
