ACKNOWLEDGEMENTS

One is confronted with a great difficulty when words find themselves unable to express what one feels in the depth of one's heart.

Same situation paralyses my thoughts when I find no words in literature to express my profound sense of gratitude and humble thanks to my esteemed and reverend teacher and Guide Dr. V.K. Sharma, M.D., D.C.P., Associate Professor and Head, Department of Pathology, MLB Medical College, Jhansi, whose incessant inspiration, perpetual encouragement, incalculable help and excellent guidance gave me strength and vigour to stand this intricate work of mine and without whose gracious and sympathetic attitude this work of mine would have remained a thing of past.

I am deeply indebted to my Co-guide Dr. (Mrs.) Ratna, M.D., Assistant Professor, Department of Pathology, M.L.B. Medical College, Jhansi, whose affectionate nature, constant inspiration and invaluable advices went to long way towards completion of this work.
I extend my sincere thanks to Dr. D. Pratap, M.S., Assistant Professor, Department of Surgery, M.L.B. Medical College, Jhansi for his extreme co-operation and moral support to me throughout the work.

And I extend my sincere thanks to Dr. J.P. Purohit, M.S., Assistant Professor, Department of E.N.T., M.L.B. Medical College, Jhansi for his extreme co-operation and moral support to me throughout the work.

My thanks are due to all my colleagues and friends who inspite of all their busy schedule found time to help me at various stages of this work.

Although it needs no mention I express my heartiest feelings for my wife Dr. (Mrs) Rachna who always stood like a light house in the moonless night throughout my voyage in the stormy ocean.

To all I can say nothing but "THANKS"

Dated : 25-02-99
