LIST OF TABLES

LIST OF TABLES

Sl.No	TITLES	PAGE No.
4.1	Age-Wise distribution of the entire sample	138
4.2	Gender-Wise distribution of the entire sample	140
4.3	Socio- Economic status of the entire sample	142
4.4	Type of Family of the entire sample	144
4.5	Personality factors (A TO Q4 of CPQ) of the entire sample before and after treatment	146
4.6	Mean difference in Schizothymia versus Affectothymia (Factor A) of the sample before and after treatment	155
4.7	Mean difference in Low Intelligence versus High Intelligence (Factor B) of the sample before and after treatment	158
4.8	Mean difference in Emotional Instability/ Ego weakness versus Higher Ego strength (Factor C) of the sample before and after treatment	161
4.9	Mean difference in Phlegmatic temperament versus Excitability (Factor D) of the sample before and after treatment	164
4.10	Mean difference in Submissiveness versus Dominance/ Ascendance (Factor E) of the sample before and after treatment	167
4.11	Mean difference in Desurgency versus Surgency (Factor F) of the sample before and after treatment	169
4.12	Mean difference in Low Super-Ego strength/Lack of acceptance of group moral standards versus stronger Super ego strength/ Character (Factor G) of the sample before and after treatment	172
4.13	Mean difference in Thrextia versus Parmia (Factor H) of the sample before and after treatment	175
4.14	Mean difference in Harria versus Premsia (Factor I) of the sample before and after treatment	177

4.15	Mean difference in Zeppia versus Coasthenia (Factor J) of the sample before and after treatment	180
4.16	Mean difference in Naivete versus Shrewdness (Factor N) of the sample before and after treatment	182
4.17	Mean difference in Untroubled adequacy versus Guilt proneness (Factor O) of the sample before and after treatment	184
4.18	Mean difference in Low Self-Sentiment Integration versus High Strength of Self- Sentiment (Factor Q3) of the sample before and after treatment	186
4.19	Mean difference in Low Ergic Tension versus High Ergic Tension (Factor Q4) of the sample before and after treatment	189

LIST OF CHARTS

LIST OF CHARTS

Sl.No	TITLES	PAGE No.
4.1.1	Age-Wise distribution of the entire sample	138
4.2.1	Gender -Wise distribution of the entire sample	140
4.3.1	Socio- Economic status of the entire sample	142
4.4.1	Type of family of the entire sample	144
4.6.1	Mean difference in Schizothymia versus Affectothymia (Factor A) of the sample before and after treatment	155
4.7.1	Mean difference in Low Intelligence versus High Intelligence (Factor B) of the sample before and after treatment	158
4.8.1	Mean difference in Emotional Instability/ Ego weakness versus Higher Ego strength (Factor C) of the sample before and after treatment	161
4.9.1	Mean difference in Phlegmatic temperament versus Excitability (Factor D) of the sample before and after treatment	164
4.10.1	Mean difference in Submissiveness versus Dominance/Ascendance (Factor E) of the sample before and after treatment	167
4.11.1	Mean difference in Desurgency versus Surgency (Factor F) of the sample before and after treatment	169
4.12.1	Mean difference in Low Super-Ego strength/Lack of acceptance of group moral standards versus stronger Super ego strength/ Character (Factor G) of the sample before and after treatment	172
4.13.1	Mean difference in Threctia versus Parmia (Factor H) of the sample before and after treatment	175
4.14.1	Mean difference in Harria versus Premsia (Factor I) of the sample before and after treatment	177
4.15.1	Mean difference in Zeppia versus Coasthenia (Factor J) of the sample before and after treatment	180
4.16.1	Mean difference in Naivete versus Shrewdness (Factor N) of the sample before and after treatment	182
4.17.1	Mean difference in Untroubled adequacy versus Guilt proneness (Factor O) of the sample before and after treatment	184
4.18.1	Mean difference in Low Self-Sentiment Integration versus High Strength of Self- Sentiment (Factor Q3) of the sample before and after treatment	186
4.19.1	Mean difference in Low Ergic Tension versus High Ergic Tension (Factor Q4) of the sample before and after treatment	189
