Acknowledgments

I would like to take this opportunity to express a few heartfelt words for the people without whose support, encouragement and help, I would not have been able to accomplish the desired goal of completion of my thesis.

I express my deepest sense of gratitude to my supervisor Dr. M. Kakati for introducing me to the area of Plasmas, Nanomaterials, Divertor simulators. I received his dynamic guidance and moral support throughout my research work. I have also imbibed the ethics of scientific research from him for which I am extremely thankful. Without his valuable suggestions, discussions and constant encouragement the work could not have been possible to be in present shape.

I would also like to offer my heartfelt thanks to Prof. K.S. Goswami, Centre-Director, CPP-IPR for his inspiration and encouragement throughout my research work. His invaluable inspiration, suggestions, and concern in every step of my thesis work are highly acknowledged. I am also obliged to Prof. Shashank Chaturvedi, Director, IPR, Prof. Dhiraj Bora, Former Director, IPR, Late. Prof. P.K. Kaw, Former Director, IPR, Prof. Sarbeswar Buzarbaruah, Former Director, Erstwhile CPP. Furthermore, I would like to express my sincere gratitude to Prof. Y.C. Saxena, IPR for his unwavering support, collegiality, and mentorship throughout this work. I also acknowledge Department of Atomic Energy, Govt. of India, for funding the experiments and providing me with fellowship.

I would also like to express my sincere gratitude to Dr. N. Aomoa who initially as a project scientist took the main lead in the design and development of the electromagnet
system of the CIMPLE-PSI device. Moreover, I am also thankful to him for his moral backing and invaluable help during my whole research work period.

I would like to express my heartfelt thanks to the faculty members of CPP-IPR namely Prof. B.K. Saikia, Dr. B.J. Saikia, Dr. S.R. Mohanty, Dr. M. Dey, Dr. T. K. Borthakur, Dr. M. Chakraborty, Dr. P.J. Bhuyan, Dr. N.K. Neog, and Dr. S.S. Kaushik for many scientific discussions and suggestions. I also wish to acknowledge the help, inspirations and constant encouragement obtained from Dr. H. Bhuyan, and Dr. B. Bora during my research work.

I would like to express my sincere thanks to Dr. S. Sarma, IIT, Guwahati, Dr. Uday Deshpande, UGC-DAE Consortium for Scientific Research, Indore, Dr. Sanjiv Kumar, NCCCM, BARC, Hyderabad, Dr. Biswarup Satpati, SINP Kolkata, Dr. Divesh N. Srivastava, CSIR-CSMCRI, Bhavnagar, for their help in material characterizations and valuable discussions. I sincerely acknowledge Dr. G. De Temmerman, ITER, France for his valuable suggestions and technical discussions during my research work period. Furthermore, I would like to acknowledge SAIF, NEHU, Shillong, IASST, Guwahati, and CSIR-NEIST, Jorhat for their invaluable help in material characterizations.

I would also like to express my earnest appreciation to my friends at CPP-IPR, Neelanjan, Sayan, Suramoni, Narayan, Nilam, Deiji, Parismita, Rinku, and Dharitree for their companionship and support during the past five years. Special thanks to Mr. K. Deka for his continuous help in completing the experiments. Moreover, thanks to Mrs. Lavita Sarma, Dr. Gopi Kishen, Pubali Dihingia, Mizanur Rahman, and Atri Mukherjee for their constant support. I place on record, my sense of gratitude to one and all who, directly or indirectly, have lent their helping hand in this venture.
At last but not the least, I would like to thank my parents, my elder brother and sister in law, my family members and all associated with me for their selfless love, unceasing encouragement and support during my Ph.D. life.

Trinayan Sarmah, 2018
