LIST OF PUBLICATIONS

1. PEI-alginate nanocomposites as efficient in vitro gene transfection agents

2. Engineered Polyallylamine Nanoparticles for Efficient In Vitro Transfection

3. Imidazolyl-PEI modified nanoparticles for enhanced gene delivery
   A. Swami, A. Aggarwal, A. Pathak, Soma Patnaik, P. Kumar, Y. Singh and K.C. Gupta

4. In vitro and in vivo evaluation of PEI-Alginate nanocomposites
   (Communicated)

5. Crosslinked polyethyleneimine-hexametaphosphate nanoparticles to deliver nucleic acids therapeutics
   (Communicated)

6. Modified PEI nanoparticles mediated gene delivery
   (MSS under preparation)

7. Evaluation of engineered PEI nanoparticles for gene delivery
   (MSS under preparation)
