Acknowledgements

First and foremost I would like to thank Almighty Allah for the wisdom and courage that he has been bestowed upon me during this study that enabled me to accomplish my research work and surmount many complications. I would like to thank my Parents for showering their blessings upon me to pursue this research work. The words cannot describe their role in my life, I cannot think of living without their love and care without which I could not have carried out this research.

With a deep sense of gratitude, I express my sincere thanks to my esteemed Supervisor Dr. Sonu Mittal, Associate Professor, Department of Computer Science and Engineering, Jaipur National University, Jaipur for his immense help, valuable guidance, effective supervision, stimulating suggestions and encouragements at all times while carrying out this research work. He always provided a motivating and enthusiastic atmosphere to work with; it was a great pleasure to carry out the research work under his supervision. His everlasting energy and enthusiasm in research motivated all his advisees, including me. In addition he is always accessible and willing to help his students in their research.

I also express my deep sense of gratitude and sincere thanks to my Co-Supervisor, Dr. Majid Zaman, Scientist D, Directorate of IT&SS, University of Kashmir, Srinagar for providing guidance and encouragement from the preliminary level to the concluding level amidst his busy schedule.

I gratefully express my sincere thanks to Dr. H.N Verma, Vice-Chancellor Jaipur National University and Prof. Prashant Saxena, Director, School of Computer & System Sciences, for their continuous support, encouragement and for making it possible to complete the submission of the thesis in time.

I especially want to thank all the Faculty Members and Administrative Staffs of the Department of Computer Science and Engineering, Jaipur National University, Jaipur for their help, encouragement, support and cooperation. Last but not least I am indebted to all my Friends and Relatives for supporting me in all respect during the completion of this research; I thank all of them for their prayers and good will.
