ACKNOWLEDGEMENT

It was a dream which came true. A roller coaster ride with many downs ultimately reached its destination. The credit of taking me to this pinnacle goes to my supervisor Dr. B.N. Mallick. Therefore, I would like to express my deep sense of gratitude and indebtedness to Dr. B.N. Mallick who has always been a friend, guide and the philosopher. His keen interest and constructive criticisms made this mirage turn into a actuality.

I owe a debt of gratitude to Prof. Rameshwar Singh who allowed me to work in his laboratory and whose affectionate patronage and encouragements always worked as a morale booster for me.

Word will never be enough to depict the support Prof. P. C. Kesavan, Dean, S.L.S. extended during the critical phases of this thesis. I am exceedingly grateful to Prof. P.C. Kesavan.

I am also thankful to Dr. V.C. Tyagi for the regular supply of the laboratory animals.

A special word of mention is due to Mr. Saini for his excellent execution of art and photographic works.

I cannot help myself from expressing my deep sense of gratitude to Mr. Avaiz Ahmad, Mr B. A. Khan, Mr. Alexander and all the C.I.F. and S.L.S. staffs for their technical and administrative help.

I must acknowledge my thanks to my senior colleagues Dr. Deepak Sharma, Dr. Venugopal and Dr. Noor Alam and all my friends especially Mr. Sri Ram, Miss Seema, Mr. Melvi and Miss Sangeeta who were always there when I needed them. I am extremely thankful to Mr. Pravesh and Mr. Ghanshyam for their indispensable lab. assistance.

I have special appreciation for Mr. Vrushank Dave, who inspired me to join this University.

I gratefully acknowledge the University Grants Commission (UGC) for financial assistance provided to me in the form of J.R.F. and S.R.F.

Last, but not least, I am thankful to all my other friends especially, Mr. Ramesh Babu, Mr. Manoj Joshi and Dr. D. R. Shukla, the sweet memories of which will be cherished and relished by me throughout my life.

(MAHESH THAKKAR)
