List of Tables

Table 1 11
Different localities from where Panax species were collected

Table 3 39
Shoot regeneration from the terminal bud cultured in MS medium supplemented with KIN and BAP in P. assamicus and P. pseudoginseng

Table 4.1 50
Callus induction in different media augmented with 2,4-D from leaf and petiole explants of P. assamicus and P. pseudoginseng

Table 4.2 54
Induction of somatic embryos in MS medium supplemented with BAP, KIN and NAA from leaf and petiole explants of P. assamicus and P. pseudoginseng

Table 5.1 72
Callus induction from the rhizome (0.5mm) in MS and SH media augmented with 2,4-D

Table 5.2 77
Induction of somatic embryos from the derived callus (0.5g) in MS and ½ MS incorporated with BAP, KIN and 2,4-D

Table 6.1 94
Induction of callus in different media incorporated with 2,4-D

Table 6.2 98
Induction of somatic embryos from the derived callus (0.5g) in MS medium augmented with IAA, BAP and KIN

Table 7 113
Survival percentage of regenerated plantlets from in vitro and in vivo explants
