<i>List of Tables</i>	vi-viii
<i>List of Figures</i>	ix-x
<i>List of Plates</i>	xi
CHAPTER I: Introduction	1-19
1.1. General Introduction	1-12
1.1.1. Ecological benefits of Forests	2-4
1.1.2. Human Pressure on Forests	4-6
1.1.3. Issues Related with Human Pressure on Forests	6-7
1.1.4. Effects of Human Pressure on Forests	7-9
1.1.5. Forest Fragmentation due to Channel Migration	9-10
1.1.6. Effect of Forest Fragmentation	10-11
1.1.7. Management and Conservation of Forest	11-12
1.1.8. Scope of Eco-Tourism in the Study Area	12
1.2. Statement of the Research Problem	12-14
1.3. Aims and Objectives	14
1.4. Working Hypothesis	14-15
1.5. Methodology	15-17
1.6. Significance of the Study	17-18
1.7. Organization of the Work	18-19

CHAPTER II: Review of Literature	20-34
2.1. Use of Remote Sensing and GIS in LULC and Habitat Analysis	20-23
2.2. Deforestation , Forest Fragmentation and Effects on Wildlife	23-26
2.3. Soil Quality in the Forest Ecosystem	26-28
2.4. Surface Water Quality in Forest Ecosystem	28-30
2.5. Vegetation Analysis in Forest Ecosystem	30-31
2.6. River Channel Migration	31-33
2.7. Man-Elephant Conflicts and Socioeconomic Analysis	33-34
CHAPTER III: Geo-Environmental Setting of the Study Area	35-43
3.1 Introduction	35
3.1.1 Location	35
3.1.2. Monitoring and Maintenance of the Sanctuary	35-37
3.2. Physiography and Drainage	37-38
3.2.1 Geology and Soil	37
3.2.2. Drainage	38
3.3. Climate and Vegetation	38-40
3.4. Settlement in the Periphery of the Sanctuary	40-42
3.5. Geo-Environmental Problems	42-43
CHAPTER IV: Mapping of Landuse/Landcover in Sonai Rupai Wildlife Sanctuary	44-57
4.1. Introduction	44-46
4.2. Materials and Methodology	46-48
4.3. Results and Discussion	48-56
4.4. Conclusion	56-57
CHAPTER V: Soil Quality in Sonai-Rupai Wildlife Sanctuary	58-74
5.1. Introduction	58-59
5.2. Materials and Methods	59-63

5.2.1. Collection of Soil Sample	59
5.2.1. Laboratory Methods	61-63
5.3. Results and Discussion	64-73
5.4. Relationship among Soil Quality Parameters	73
5.5. Conclusion	74
CHAPTER VI: Water Quality in Sonai-Rupai Wildlife Sanctuary	75-126
6 1. Introduction	75-77
6.2. Materials and Methods	77-89
6.2.1 Selection of Sampling sites	77
6.2.2. Collection of Water samples	79
6.2.3. Analysis for physico-Chemical Parameters	79-85
6.2.4. Analysis of Bacteriological Parameters	85
6.2.5. Statistical Analysis	86-87
6.2.6. Computation of Water Quality Index (WQI)	87-89
6.3. Results and Discussion	89-125
6.3.1. Physical Parameters	89-92
6.3.2. Chemical Parameters	92-110
6.3.3. Bacteriological Parameters	111-114
6.3.4. Interrelationships among different Water Quality Parameters	114-115
6.3.5. Water Quality Index	115-125
6.4. Conclusion	126
CHAPTER VII : Diversity of Tree Species In Sonai- Rupai Wildlife Sanctuary	127-142
7.1. Introduction	127-129
7.2. Methodology	129-132
7.3. Results and Discussion	132-141
7.3.1. Importance Value Index	132-134

7.3.2. Family Importance Value and Family Diversity	135-139
7.3.3 Margalef's species richness index (<i>Dmg</i>) and Shannon-Wiener Diversity Index	139-140
7.3.4. Regeneration status of Trees Species	140
7.3.5. Economical Importance of Tree Species	141
7.4. Conclusion	141-142
CHAPTER VIII: Socio-economic condition of the nearby villages and Human pressure on the Sanctuary	143-175
8.1. Introduction	143-145
8.2. Need of Socio-economic study	145-146
8.3. Methodology	146-148
8.4. Results and Discussion	150-174
8.4.1. Respondents Profile	150-151
8.4.2. Demographic structure	151-155
8.4.3. Housing Pattern and living condition	155-157
8.4.4. Education, Employment and Income level	157-163
8.4.5. Health and Sanitation	163-164
8.4.6. Transport Facilities	165
8.4.7. Dependence/Extraction of Forest Resources	165-170
8.4.8. Threats identified in the Sanctuary	170-173
8.4.9. Awareness of Forest and wildlife Conservation	174
8.5. Conclusion	174-175
CHAPTER IX: Channel migration and its impact on wildlife habitat	176-204
9.1. Introduction	176-179
9.2. Methodology	179-182
9.3. Results and Discussions	182-203
9.3.1. Quantification of Erosion and Deposition	185-191
9.3.2. Causes of Channel Migration	191

9.3.3. Effect of Channel Migration on Wildlife Habitat	192-203
9.4. Conclusion	204
CHAPTER X: Effects of deforestation and forest fragmentation on wildlife habitat	205-233
10.1. Introduction	205-206
10.2. Causes of Deforestation and Forest Fragmentation	206-220
10.2.1. Anthropogenic Activities	207-217
10.2.2. Natural Causes	217
10.2.3. Migration of people	219-220
10.2.4. Establishment of Army Cantonment	220
10.3. Effect of Fragmentation in the Sanctuary	221
10.3.1. Habitat loss and its impact on Biodiversity	221-224
10.3.2. Human Elephant Conflicts	225-232
10.4. Conclusion	233
CHAPTER XI: Summary and Conclusion	234-251
