CHAPTER	TITLE	PAGE NO.
1.	INTRODUCTION	1
2.	REVIEW OF LITERATURE	12
3.	MATERIALS AND METHODS	32
4.	RESULTS	45
5.	DISCUSSION	115
6.	SUMMARY AND CONCLUSION	134
7.	REFERENCES	i-xxix

ABBREVIATIONS

%	-	Percentage
°C	-	Degree Celsius
µg	-	Microgram
µL	-	Microlitre
ABTS	-	2, 2'-Azinobis-(3-ethylbenzothiazole-6-sulphonate)
CFU	-	Colony Forming Unit
cm	-	Centimeter
DPPH	-	1, 1-Diphenyl-2-picrylhydrazyl
etc.	-	Extra
GC-MS	-	Gas Chromatography- Mass Spectrometry
gms	-	Grams
hrs	-	Hours
i.e,	-	That is
kg	-	Kilogram
MD	-	Mean Density
mg	-	Milligram
Mins	-	Minutes
mL	-	Millilitre
MTT	-	3-(4,5-dimethylthiazol-2-yl)-2,5-diphenyltetrazolium bromide
NIST	-	National Institute of Standard and Technology
PCR	-	Polymerase chain reaction
PDA	-	Potato Dextrose Agar
pH	-	Minus the decimal logarithm of the hydrogen ion activity
ppm	-	Parts Per Minutes
RT	-	Retention Time
SD	-	Standard Deviation
TNC	-	Total Number of Colonies

LIST OF TABLES

Table No	Content	Page No
1	List of isolated soil mycoflora from mangrove environment of Karankadu from the period of January 2013 to December 2013	46
2	Culture characteristics of isolated fungi	49
3	Total number of colonies, mean density (CFU/g) and percentage contribution of soil fungi from mangrove environment of Karankadu (January 2013 to December 2013)	69
4	Percentage frequency and frequency class of different species of isolated soil fungi from mangrove environment of Karankadu (January 2013 to December 2013) (n=12)	73
5	Diversity indices	76
6	Physical properties of the soils samples collected from mangrove environment of Karankadu, Ramanathapuram Dt	78
7	Correlation coefficient (r) values for various physico-chemical parameters and total fungal colonies of mangrove soils of Karankadu (January 2013 to December 2013)	89
8	DPPH free radical scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	90
9	ABTS radical cation scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	93
10	Nitric oxide scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	96
11	Phosphomolybdenum reducing potential of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	99

12	Bioactive compounds identified in ethyl acetate extract of <i>D. nanum</i> by GC-MS	102
13	Bioactive compounds identified in ethyl acetate extract of <i>P. cyaneum</i> by GC-MS	104
14	Bioactive compounds identified in ethyl acetate extract of <i>T. polysporum</i> by GC - MS	106
15	Cytotoxicity of <i>P. cyaneum</i> against HepG2 cell lines	108

LIST OF PLATES

Plate No	Content	Page No
1	Macroscopic and microscopic view of isolated soil mycoflora from Mangrove environment	57-68

LIST OF FIGURES

Figure No	Content	Page No
1	Sources of marine fungi that have been chemically characterized (Rateb and Ebel, 2011)	3
2	Map showing the sampling site - Karankadu	32
3	Study site – Mangrove environment, Karankadu	33
4	Collection of soil sample and sea water at Karankadu	34
5	Percentage of different classes of isolated soil mycoflora from mangrove environment of Karankadu, Ramanathapuram Dt.	45
6	Month wise occurrence of isolated mangrove fungi	47
7	Monthly variation of pH recorded in soil samples collected from mangroves of Karankadu, Ramanathapuram Dt.	79
8	Monthly variation of Salinity recorded in soil samples collected from mangroves of Karankadu, Ramanathapuram Dt.	79
9	Monthly variation of Electrical conductivity recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	80
10	Monthly variation of Organic Matter recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt	81
11	Monthly variation of Organic Carbon recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	81
12	Monthly variation of available Nitrogen recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	82

13	Monthly variation of available Phosphorus recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	83
14	Monthly variation of available Potassium recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	83
15	Monthly variation of available Zinc recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	84
16	Monthly variation of available Copper recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	84
17	Monthly variation of available Iron recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	85
18	Monthly variation of available Manganese recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	85
19	Monthly variation of Cation Exchange Capacity recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	86
20	Monthly variation of Calcium recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	86
21	Monthly variation of Magnesium recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	87
22	Monthly variation of Sodium recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	87
23	Monthly variation of Potassium recorded in soil samples collected from mangrove environment of Karankadu, Ramanathapuram Dt.	88
24	DPPH free radical scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	91

25	DPPH free radical scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	92
26	ABTS radical cation scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	94
27	ABTS radical cation scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	95
28	Nitric oxide scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	97
29	Nitric oxide scavenging activity of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	98
30	Phosphomolybdenum reducing potential of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	100
31	Phosphomolybdenum reducing potential of ethyl acetate extract of <i>D. nanum</i> , <i>P. cyaneum</i> and <i>T. polysporum</i>	101
32	GC-MS chromatogram formed by ethyl acetate extract of <i>D. nanum</i>	103
33	GC-MS chromatogram formed by ethyl acetate extract of <i>P. cyaneum</i>	105
34	GC-MS chromatogram formed by ethyl acetate extract of <i>T. polysporum</i>	107
35	Cytotoxicity of <i>P. cyaneum</i> against HepG2 cell lines	109
36	Morphology of HepG2 cells treated with ethyl acetate extract of <i>P. cyaneum</i>	109
37	18S rRNA gene sequence of <i>P. cyaneum</i> XMU01	111
38	Phylogenetic analysis of <i>P. cyaneum</i> XMU01 by Neighbour joining method - Evolutionary relationships of 34 taxa	113
39	Restriction site analysis and GC and AT content of 18S rRNA gene of <i>P. cyaneum</i> XMU01	114
