

## ***Acknowledgement***

*In the days of 2005, I started my journey to learn about Indigenous health care and wander to many people of more than fifty villages of Purulia and Paschim Medinipur. All of them help me to reach in this current volume. Especially I cannot generalize name of Mr. Kanailal Maity, Mr. Jagadish Mahato, and Mr. Ramesh Mahato with these large body of contributors. I may feel light mentioning name of my friends Dr. Arup Bera for a long companionship in fieldwork. My taught like Goutam Sahu, Nabin Kumar Mahato and Mr. Brajamohan Samal also demand for acknowledgement.*

*Desire of this work had a faint clue from few classes of complex society and civilization of Professor Gopal Krishna Chakrabarty in 2003 at post graduation level of Vidyasagar University. Now I am proud as indebted to him as my doctoral supervisor.*

*I feel energetic to do this work with the inspiration of Dr. Manish Kumar Raha and Professor Dipak Ranjan Mandal. All the teachers from whom I learn a lot are instant inspiration for me. I cannot mention a large number of friends, colleagues and well wishers to bring them in an unlimited source of support.*

*My wife and little son absorbed the strains in the way of complete this work and keep me active throughout prolonged journey. All the lapses are mine.*
