## List of tables

<b>No.</b>	<b>Title of tables</b>	<b>Page No.</b>
1.	Criteria of selecting and number of respondents	16
2.	Differences between two field areas	31
3.	Caste and community wise distribution of informants	39
4.	Community wise status and activities	
5.	Regional interrelationship of climate and diseases Gender-wise variation of the disease	40
6.	Seasonal variation of diseases in thrust area	41
7.	Rationale for tabulation and analysis of general inhabitants (non-patient respondents)	43
8.	Community, age groups and educational status of general inhabitants	44
9.	Villages of the Selected Healers Understudy: Purulia district	46
10.	Table-10: Jhargram district	46
11.	Rationale for tabulation and analysis of healers-	46-47
12.	Rationale for tabulation and analysis of women healers	48
13.	Community, age groups and educational status of men healers	49
14.	Community, age groups and educational status of women healers	50
15.	Age group and experience of indigenous men healers	51
16.	Age group and education of indigenous men healers	53
17.	Age group and occupation of indigenous men healers	55
18.	Age group and sources of skill learning among indigenous men healers	58
19.	Educational status in respect to age group of women healers	60

<b>No.</b>	<b>Title of tables</b>	<b>Page No.</b>
20.	Occupational status of women healers	61
21.	Knowledge, innovativeness and successors among women healers	64
22.	Rate of success in different ailment categories of women healers	65
23.	Problems of Women healers to cater their services	67
24.	Women healers in their family and society	69
25.	Experiences with treated diseases categories by the indigenous healers inferences to suffering period of patents	71
26.	Mode of Diagnosis during treatment by the indigenous men healers	73
27.	Preparation of medicine and collection of raw materials by the indigenous men healers	75
28.	Supporting source for treatments for the indigenous men healers	77
29.	Healers prescribing food habit to the patients during medication by the indigenous men healers	78
30.	Self satisfaction of the indigenous men healers about their performances	80
31.	Causation of diseases upon indigenous men healers about their performances	81
32.	Rationale for analysis and tabulation of Patients	85
33.	Community, age groups and educational status of patients	86
34.	Disease intensity of the patients	87
35.	Learning of health care phenomenon by the patients	89
36.	Perceptions of the patients about the cause of the disease	91
37.	Table-37: Decision making by the patients	92
38.	Changing treatment procedures by the patients	94
39.	Table-39: Self satisfaction of the patients about treatment	95
40.	of visited weekly market for selection of medicinal vendors	98
41.	Rationale for Tabulation and Analysis of Medicine Vendors (contd.)	99-100
42.	Community, age groups and educational status of medicine vendors	101
43.	Age group wise learning skill among the traditional medicine vendors	102
44.	Age group wise occupational practice among the traditional medicine vendors	104

<b>No.</b>	<b>Title of tables</b>	<b>Page No.</b>
45.	Collection of Raw materials by the traditional medicine vendors	106
46.	Collection and preparation of medicines of traditional medicine vendors	108
47.	Service catering by the traditional medicinal vendors	109
48.	for rendering service by traditional medicine vendors	111
49.	Area and Place of rendering Service by traditional medicine vendors	113
50.	Information about the customers (patients, healers and commoners) by traditional	115
51.	Area in dissemination of knowledge of traditional medicine vendors	116
52.	Trends of change among traditional medicine vendors	118
