ACKNOWLEDGEMENT

This thesis is the culmination of my journey of Ph.D which was just like climbing a high peak step by step accompanied with encouragement, hardship, trust, and frustration. When I found myself at top experiencing the feeling of fulfillment, I realized though only my name appears on the cover of this dissertation, a great many people including my family members, well-wishers, my friends, colleagues and various institutions have contributed to accomplish this huge task.

Foremost, Words would not suffice to express my gratitude to the God Almighty, which flows from my heart for the privilege granted to me to complete my research.

I owe my sincere gratitude from the depth of my heart to my respectful Research Supervisor Dr. A. Aloysius, Assistant Professor in Computer Science, St. Joseph’s College (Autonomous), Tiruchirappalli, for his motivation, enthusiasm, and immense knowledge. He provided stable advice in my calculations and suggested many important additions and improvements. It has been greatly enriching experience to me to work under his reliable guidance. It was only because of his keen interest and continuous supervision that gave my research in the extent shape. I am prominently grateful to him.

Besides my research supervisor, I am greatly indebted to my Doctoral Committee member Dr. D. I. George Amalarathinam, Bursar & Director of MCA, Department of Computer Science, Jamal Mohamed College (Autonomous), Tiruchirappalli, for the continuous support to my research. He has been very patient and always willing to lend his service whenever I approached him. He was kind enough to
undertake the correction work in an enormous way and I bow and acknowledge the meticulous work he has done. So, I render my sincere and special thanks to him. And I would like to thank Dr. B. Vani, Assistant Professor, Department of Computer Science, Srimad Andavan Arts and Science College (Autonomous), Trichy for her support. Her stimulating motivation and valuable ideas helped me to enrich this research work.

I owe a debt of gratitude to Rev. Dr. F. Andrew SJ, Principal of St. Joseph’s College (Autonomous), Tiruchirappalli for providing me with the great research opportunity to pursue the doctoral program in this esteemed institution par excellence.

I wish to express my sincere thanks to Dr. D. P. Jeyapalan, Head, Department of Computer Science, St. Joseph’s College (Autonomous), Tiruchirappalli for providing me an ambient research environment in the department. I take this opportunity to record my sincere thanks to each and every faculty members in the Department of Computer Science, St. Joseph’s College (Autonomous), Tiruchirappalli for their encouragement and support.

I would like to express my deepest sense of gratitude in a special way for our Holy Crossian Sisters especially Rev. Sr. V. Lilly, Secretary, Rev. Sr. A. Christina Bridget, Principal, Rev. Sr. P. Rajakumari, Incharge-Shift II and Rev. Sr. Jeusin Francis, Former Principal who have inspired and permitted me to do the research work in successfully with their massive words and blessings.

I am grateful to my colleagues in the Department of Computer Science, Holy Cross College, for all of their support, interest and encouragement throughout the completion of this study.
I sincerely thank Dr. E. George Dharma Prakash Raj, Assistant Professor, School of Computer Science and Engineering, Bharathidasan University, Technology Park, Tiruchirappalli for his valuable suggestions and feedbacks enhanced this research work.

I express my special thanks to Dr. A. Aloysius Research Group scholars for their valuable suggestions, encouragement and help during the course of my research.

Saving the most important for last, I wish to give my heartfelt thanks to my husband, Prof. K. R. Martin, whose unconditional love, patience, and continual support of my academic endeavours over the past several years enabled me to complete this thesis.

I owe a lot to my parents, Mr. George and Ms. Rani, who encouraged and helped me at every stage of my personal and academic life, and longed to see this achievement come true. I am very much indebted to my daughter Trinita, my son Elvis, and mother-in-law, Ms. Nirmala who supported me in every possible way to see the completion of this work. I also thank my sister-in-law, Ms. Packiam and her family for their good wishes.

Above all, I owe it all to the Almighty Omnipotent God for HIS immense blessings with Wisdom, Knowledge, Health and Strength to undertake this research task and enabling me to its completion.
