LIST OF TABLES

1. Status of insect pests and their natural enemies in cauliflower and cabbage during rabi season 2006-07

2. Status of insect pest and their natural enemies in cauliflower and cabbage during rabi season 2007-08

3. Seasonal incidence of major insect pests and their natural enemies on cauliflower during rabi season 2006-07

4. Seasonal incidence of major insect pests and their natural enemies on cauliflower during rabi season 2007-08

5. Distribution pattern of *Plutella xylostella* (L.) on cauliflower during rabi season 2006-07 and 2007-08 (pooled observation)

6. Distribution pattern of *Lipaphis erysimi* (Kalt.) on cauliflower during rabi season 2006-07 and 2007-08 (pooled observation)

7. Distribution pattern of coccinellids on cauliflower during rabi season 2006-07 and 2007-08 (pooled observation)

8. Distribution pattern of syrphids on cauliflower during rabi season 2006-07 and 2007-08 (pooled observation)

9. Distribution pattern of *Cotesia plutellae* (Kurd.) on cauliflower during rabi season 2006-07 and 2007-08 (pooled observation)

10. Effect of synthetic insecticides and *Bt*-formulations on population count of *Plutella xylostella* (L.) and *Crocidolomia binotalis* (Zell.)

11. Effect of synthetic insecticides and *Bt*-formulations on population count of *P. xylostella* under natural condition 2006-07

12. Effect of synthetic insecticides and *Bt*-formulations on population count of *P. xylostella* under natural condition 2007-08
13. Effect of synthetic insecticide and Bt- formulation on population count of *P. xylostella* / plant under protected condition

14. Effect of synthetic insecticides and Bt- formulations on population count of *Lipaphis erysimi* (Kalt.) under natural condition

15. Effect of synthetic insecticides and Bt- formulations on population count of *Pieris brassicae* (L.) under natural condition

16. Effect of synthetic insecticides and Bt- formulations on population count of Coccinellids under natural condition

17. Effect of synthetic insecticides and Bt- formulations on population count of syrphids under natural condition 2006-07

18. Effect of synthetic insecticides and Bt- formulations on population count of Syrphids under natural condition 2007-08

19. Effect of synthetic insecticides and Bt- formulations on population count of *Cotessia plutellae* (Kurd.) under natural condition

20. Effect of synthetic insecticides and Bt- formulations on population count of *Cotesia plutellae* (Kurd.) under natural condition

21. Screening of Bt-cauliflower and Bt-cabbage germplasms against *Plutella xylostella* (L.) under green house condition

22. Screening of Bt-cauliflower and Bt-cabbage germplasms against *Helicoverpa armigera* (Hub.) under green house condition

23. LC$_{50}$, fiducial limit and heterogeneity of various chemicals used in treatments
