

ACKNOWLEDGEMENT

I thank my research supervisor **Dr. D. Mohan**, Professor, Membrane Lab, Department of Chemical Engineering, A.C.Tech., Anna University, Chennai for the support he has provided. I am thankful to him for the opportunity he gave me to work in his research group. His constant help, humanity and positive spirit are the motivation that drives the entire group.

I thank **Dr. P. Kaliraj**, Dean, AC. Tech., **Dr. N. Nagendragandhi**, Professor & Head, Department of Chemical Engineering and **Dr. P. Gowtham**, Chairman, Faculty of Technology, A.C. Tech., Anna University for their encouragement towards the successful completion of my work.

I thank my Doctoral committee members, **Dr. M.D.K.Kumaraswamy**, Vice- Principal, MNM Jain College, Chennai, **Dr.K .Bakthadoss**, Assistant Professor, Department of Organic Chemistry, University of Madras, Chennai. Their support, encouragement and valuable suggestions for carrying out this research work are greatly appreciated.

I submit my gratitude to my colleagues in Membrane lab for their constant support. I thank all staff members of Department of Chemical Engineering, A.C. Tech., Anna University for their moral support and understanding throughout the study.

I also thank Defence Research Development and Organisation for the financial support. I extend my gratitude to Dr.K.S.Viswanathan, Head, Spectroscopy Department, IGCAR, Chennai who was behind in all my success. I thank my husband, parents, son , sister and father-in law for their infinite support and love. Finally, I thank almighty for his blessings.

ANITHA RAJ S
