Acknowledgement

This project is not the result of an individual effort but is the product of collective wisdom and experience of all those who have shared their views far beyond those found within the covers of book. They have stood by me in all my efforts for successfully completing my project. A contribution, I value and will forever be grateful and I take this opportunity to express my gratitude to the people who have been instrumental in the successful completion of this project. It is a pleasure to thank for making project completion.

First of all, I would like to express my deep and sincere gratitude to my guide Dr. S. Y. Gabhe. His invaluable suggestions, encouragement, and guidance have been instrumental in completion of this project. Without his efforts and constant support, this project work would not have shaped up the way it is. It was my luck to get an opportunity to work under his guidance. I would like to thank guide Dr. Ritu Gilhotra for her co-operation, support during the project completion.

I am very fortunate to be a part of M. C. E. Society’s Allana College of Pharmacy, and thankful to our respected president Mr. P. A. Inamdar and Principal Dr. K.S. Bhise for providing the entire facilities and good environment for the project work.

I am equally thankful to Mr. Sathiyanarayanan, Director, Public testing laboratories and Mr. Sangram Patil Centre of food testing laboratory, BVDU, Pune, for granting me permission to carry out part of this work in the institute.

My special thanks to all my colleagues for their direct and indirect support for completion of this work.

I am really fortunate to have Husband like Dr. Sachin Eknath Potawale. My heartfelt thanks to him for his co-operation, support during the project completion. His presence has been sources of strength and delight through all my vicissitudes and my shortcomings and without him everything is incomplete.
My deepest gratitude goes to my family for their unflagging love and support throughout my life; this dissertation is simply impossible without them. I have no suitable words that can fully describe the sacrifice and pain my beloved family members have taken in bringing me up to this position. I would like to thank my in-law- Aai, Papa, My Mummy, Papa, Nilam, Nitin, Sharvari, Durva, Rudraksh for everlasting love to me, and support from them.

No words are adequate to describe my gratitude to my sisters Soniya, Triveni, my brother Anand and his better half Rutuja for their love, trust, patience and tremendous support throughout my PhD Study.

Nothing can resist a determined will, and without an intense desire to succeed, I will be always thankful The Almighty GOD for giving me the strength, will, and wisdom to carry out the project work successfully.

Once again, I would like to thank all those mentioned & those that have unknowingly failed to mention in making this project a worthy endeavor.

Mrs. Rani Sachin Potawale
