LIST OF FIGURES

Figure 2.1. Representative examples of natural and synthetic indeno[1,2-b]furan-2-ones ..............................................................23

Figure 3.1. Representative 2,3-dihydro-1H-inden-1-one natural products and bioactive compounds ..............................................................73

Figure 4.1. Selected examples of natural and bioactive isoquinolines ..............130

Figure 5.1. Representative examples of natural and bioactive tetrahydroquinolines ..............................................................167

Figure 5.2. Stereochemistry and ORTEP diagram of compound 5.37a ............182

Figure 5.3. ORTEP diagram of compound 5.47a ............................................187
