**Acknowledgement**

*Interdependence is certainly more valuable than independence. This would not have been possible without the guidance and help of several individuals who in one way or another contributed and extended their valuable assistance in the completion of this study. This is a pleasant opportunity to express my gratitude for all of them.*

With profound gratitude, I wish to thank my supervisor Prof. Seemi Farhat Basir, Department of Biosciences, Jamia Millia Islamia, for the expert guidance, her patience and enormous support. Her wise counsel and constant encouragement have helped me accomplish tasks that would otherwise have been difficult to achieve. It would be difficult to complete this study without her attention to details.

My sincere thanks to Prof. Luqman A. khan, Head, Department of Biosciences, Jamia Millia Islamia, for his enormous support and kindly allowing me to make full use of the laboratory facilities to carry out the research work.

My sincere thanks and appreciation to Prof. Syed Akhtar Husain, Department of Biosciences, Jamia Millia Islamia, for his kind help at the time of need.

My sincere thanks to Dr. Nikhat Manzoor for her kind help and support.

I extend my deepest gratitude to Prof. M. M. Misro, Professor, Department of Reproductive Biomedicine, National Institute of Health and Family Welfare, for allowing me to use the Animal House facility. I sincerely thank him for providing the necessary lab facility to carry out the dissection procedures.

I am grateful to Rekha Madam, Research Associate, National Institute of Health and Family Welfare, for teaching me the animal handling procedures and sharing her research experiences. She was kind enough to teach me how to monitor the experimental animal models for their behavior. I also wish to make a special note of thanks to the staff of Animal House, National Institute of Health and Family Welfare, New Delhi, for their kind help and assistance.

With a deep sense of gratitude I wish to thank Dr. Mausumi Bharadwaj, Assistant Director, Division of Molecular Genetics, Institute of Cytology and Preventive Oncology, for her kind help and guidance. Her valuable suggestions and close observations made me able to complete the immunoblotting experiments. I wish to thank her for providing me the liberty to use the lab facility and carry out the Western-blotting experiments.

A special thanks to Dr. Showket Hussain, Research Associate, Institute of Cytology and Preventive Oncology, for helping me in some of the experiments. He was kind enough to teach me western blotting technique and always extended his selfless help. My sincere thank to him for helping me in immunoblot analysis. I am also thankful to Dr. Neha, Kapil, Gaurav, Upma and Renu for their kind help and company.
I sincerely thank Dr. Rajni Gaind, Department of Microbiology, Safdarjung Hospital and Associated Vardhman Mahavir Medical College, for providing the necessary facility for long term storage of tissues. I also wish to thank Ruchi Gupta, Research Scholar, Department of Microbiology, Safdarjung Hospital, for her endless help and support.

I am privileged to extend my thanks to the faculty of Department of Biosciences, Jamia Millia Islamia. Deserving particular acknowledgement, the non-teaching staff of Department of Biosciences for all their co-operation and timely help. A special mention of Sagheer Sir, Shifaul Sir, Manoj Sir and Karuna Madam for their kind help and assistance.

I am grateful to many persons, who shared their research experience with me. I wish to thank all my peers, from the Enzyme kinetics lab (Lab No. 106) in the Department of Biosciences for their assistance and company during the progression of this research work. I warmly thank Rashmi madam, Aijaz, Amber, Sheraz, Nilofar, Rimple and Snowber for their support and affection. I sincerely acknowledge their stimulating presence and making me feel comfortable in the lab. I wish to thank Ghazal, Jaya, Aisha and Abdul for their help and support.

My sincere thanks to Irshad sir for his valuable suggestions in A. indica extracts preparation and HPLC analysis. I wish to thank Jafar for helping me in DNA fragmentation experiment. I would like to extend my thanks to Dr. Asia Taha and Dr. Ram Prasad for their valuable advices and sharing their experiences.

I gratefully acknowledge UGC and CSIR for financial support in form of JRF and SRF.

My family members are mentioned last to emphasize the special nature of their tremendous encouragement, support and patience throughout my candidature. I am unable to find any words to thank my parents (Mr. Veer Singh and Mrs. Savita Singh) and my parent in-laws (Mr. Sukhveer Singh and Mrs. Shashi Prabha) who endured this long process with me, always offering support and love. I would like to share this moment of happiness with my brother, Prafful and sister, Dr. Richa. They rendered enormous support during the whole tenure of my research work. At this point of my life I miss my younger sister “Anamika” the most whose untimely demise has left a void that can never be filled…….

My deepest gratitude I must reserve for my husband Mr. Avnish Singh, whose patience and understanding for the past two years in my efforts to get my research work completed. His endless love, support and patience have always kept me going. I have been so demanding and he is always been there for me. I sincerely thank him for helping me in the preparation of my dissertation and for proofreading my thesis.

Last but not the least, thank you God for this beautiful life……..

SWETA SHAILEY
