CONTENTS

1. INTRODUCTION 1-6
   1.1 General introduction 1
   1.2 Origin and distribution 1
   1.3 Habit 2
   1.4 Economic importance of the lemongrass oil 4
   1.5 Medicinal properties 4
   1.6 Significance of the present study 5
   1.7 Objectives of the research work 6

2. REVIEW OF LITERATURE 7-10

3. CHAPTER 1- Studies on chemotypes of C. citratus 11-22
   3.1 Introduction 11
   3.2 Materials and methods 12
      3.2.1 Collection and maintenance of germplasm 12
      3.2.2 Essential oil extraction and analysis 12
   3.3 Results and Discussion 13

4. CHAPTER 2- Studies on C. citratus essential oil analysis 23-36
   4.1 Introduction 23
   4.2 Materials and methods 26
      4.2.1 Analysis of essential oil 26
   4.3 Results and Discussion 27

5. CHAPTER 3- Studies on activity of essential oil from C. citratus 37-69
   5.1 Introduction 37
   5.2 Materials and methods 38
      5.2.1 Antioxidant activity 38
      5.2.2 Antimicrobial activity 39
      5.2.3 Antihyperglycemic activity 40
      5.2.4 Wine fermentation studies 45
   5.3 Results and Discussion 48
6. CHAPTER 4- Studies on evaluation of *C. citratus* essential oil stability

6.1 Introduction 70
6.2 Materials and methods 71
   6.2.1 Determination of physico-chemical properties 72
   6.2.2 Evaluation of chemical stability 72
   6.2.3 Evaluation of thermal stability 73
6.3 Results and Discussion 73

7. CHAPTER 5- Studies on *in vitro* culture for mass propagation and secondary metabolite production of *C. citratus*

7.1 Introduction 81
7.2 Materials and methods 82
   7.2.1 Callus induction 82
   7.2.2 Shoot and root regeneration 82
   7.2.3 Elicitation of secondary metabolites 82
7.3 Results and Discussion 84

8. SUMMARY AND CONCLUSION 90-93

9. FUTURE PROSPECTS 94
