ACKNOWLEDGEMENT

First and foremost, great praise and supplicate to Allah, who helped me to complete this research work.

I owe my deep gratitude, sincere appreciation to my research supervisor Dr. M. R. Janardhana, Head, Department of Geology, Yuvaraja’s College, University of Mysore, India, for his most competent, foreseeing guidance, providing valuable suggestions, encouragement and constructive criticisms throughout the research work.

I would like to express my thanks to the distinguished Doctoral Committee members Prof. M. Madesh, Chairman, BOS in Earth Science; Prof. K. G. Asha Manjari, Chairman, DOS in Earth Science; Prof. A. Balasubramanian and Prof. M.S. Sethumadhav, DOS in Earth Science, University of Mysore, Mysuru for the approval of my work.

I sincerely thank to Prof. Dr. Elias Salameh, Jordan University, for suggesting the topic of research and stimulating my interest in Structural Geology. He also taught me to seek out the flows in arguments and argue logically. Dr. Alsharifa Hind Mohammad of Jordan University is also thanked for the encouragement.

My sincere thanks to Dr. R. Ganesh, Principal, Yuvaraja's College for his encouragement. My deep thanks are extended to Prof. K. Rao, for his great help and providing information on hydrochemistry.

I cannot forget to express my gratitude to my mother, my father, my brothers and my sisters for their constant love and moral and emotional support throughout my study stages.

Behind every success, there is a great woman. I am thankful to Allah for providing me such a loving wife: Mrs. R. Al Tarawneh, who took great pain for my future and whose dedication, overwhelming love and continuous confidence, without any complaint or regret which has enabled me to complete this work and shown me the path of success and I would like to dedicate this work to her.

At last but not the least, my sincere thanks go to all my friends and everyone who has directly or indirectly contributed in the accomplishment of this work.

Mohammad Salim Mohammad Tarawneh
