ACKNOWLEDGEMENT

The research work carried out here would not have been possible without the kind support and help of many individuals and organizations. I would like to extend my sincere thanks to few of them.

I am highly indebted to Dr. Mrs. Shaila D. Apte, Professor, RSCOE, Pune, for her guidance, constant encouragement & assistance she provided me at every stage of this research work. She provided the necessary information and gave directions for incorporating innovative methodologies in the research work. Her painstaking efforts and patience motivated me in carrying out the task in an efficient manner. I would not be exaggerating if I say that she even altered my way of thinking and functioning and I am blessed to have her as my PhD guide.

Pursuing my higher education was possible only because of the support and blessings of my family members and well wishers whose unseen motivation kept me going in this work. All the credit for the achievements in my life goes to my mother, Smt. Sulochana G. Lad, who shouldered all my responsibilities and kept my education at the first priority in her life. I don’t find words to express my gratitude towards my husband, Mr. Deepak D. Shelke, whose constant support, patience, motivation and interest encouraged me in carrying out the research work. I also appreciate my daughters Aditi and Aishwarya who were the most understanding personalities throughout the entire journey. They kept all their expectations and desires aside and helped me work for such a great cause.

I would also like to thank my institution, Pune Institute of Computer Technology, Pune-43. My special thanks to the Management, Dr. P. T. Kulkarni, Principal, Prof. G. P. Potdar, Vice-Principal, Dr. Y. Ravinder, HOD and Prof. S. S. Narkhede without the support of whom, this project would have been a distant reality. I cannot forget to express my immense sense of thankfulness towards all the teaching and non-teaching staff of E&TC department. My special thanks to my friends Prof. R. Sreemathy, Prof. Mousami Turuk, Prof. Mousami Munot, and Mr. Dnyaneshwar Mankar for their all time support and unending inspiration. I would like to thank Prof. R. Jayadevan, IT
Department, PICT, for his masterly guidance and timely encouragement that infused courage in me to complete the work successfully.

I also extend my heartfelt gratitude towards teaching and non-teaching staff members of Walchand College of Engineering Sangli-416415. My deepest thanks to Dr. Y. V. Joshi, Director, Dr. Mrs. S. S. Deshpande, Head of Electronics Department, and Dr. A. P Vaidya, Academic Dean for their support. I express my deepest concerns towards Prof. B. V. Pawar, for his constant encouragement and support in every aspect of my research work.

I express my sincere thanks towards Shivaji University and all the staff members who helped me in various aspects required for the completion of the work successfully. My special thanks to Mrs. S. S. Khanvilkar, BUTR, Shivaji University.

I would further like to extend my thanks and appreciations to all the reviewers who spent their valuable time in reviewing my work and helped in bringing novelty through their suggestions.

I also express my gratitude to all those who are directly and indirectly associated with my research and whose support helped me step towards the completion of my research work.

Last, but not the least, I express my deep gratitude towards Mr. Mayur Rathod, whose persistent efforts, support and guidance have certainly brought a lifelong dream into fruition. His problem handling methodologies, innovative ideas helped in exploring the unseen facets of the research work.

Sushma Gaikwad-Patil
