List of Figures

Chapter 1: Introduction
1.1 Evidence based practice ................................................................. 2
1.2 Steps of EBP ................................................................................. 4

Chapter 2: Review of Literature
2.1 Hierarchy of evidence ..................................................................... 15

Chapter 3: Preliminary study
3.1 Foundation and training in EBP .................................................... 29
3.2 Understanding of research related terms ..................................... 30
3.3 Barriers in implementing EBP ...................................................... 31

Chapter 4: Study one: Desk review of curricula
4.1 Region-wise availability of curricula ............................................. 42
4.2 EBP content covered in 1st two steps of EBP ............................... 44
4.3 EBP content covered in 3rd step of EBP ..................................... 46
4.4 EBP content covered in 4th and 5th steps of EBP ......................... 46

Chapter 5: Study two: Qualitative study
5.1 Semi-structured interview cycle ................................................... 53
5.2 Geographical representation of interview participants .................. 55
5.3 Compilation of Themes ................................................................. 59
5.4 Evolution of Grounded theory ...................................................... 64
