	Page
Abbreviations Used	
<i>Chapter 1</i>	
INTRODUCTION	1
<i>Chapter 2</i>	
REVIEW OF LITERATURE	8
<i>Chapter 3</i>	
SCREENING AND SELECTION OF STRAINS FOR ALKALINE PROTEASE PRODUCTION	36
Section A – Screening and Selection of Strain for Alkaline Protease Production by Submerged Fermentation	36
Section B – Screening and Selection of Strain for Alkaline Protease Production by Solid State Fermentation	45
<i>Chapter 4</i>	
OPTIMIZATION OF CONDITIONS FOR THE PRODUCTION OF ALKALINE PROTEASES	52
Section A – Optimization of Conditions for the Production of Alkaline Protease by <i>Bacillus</i> sp. K 25 by the Submerged Fermentation Method	52
Section B – Optimization of Conditions for the Production of Alkaline Protease by <i>Bacillus pumilus</i> K 242 by the Solid State Fermentation Method	74
<i>Chapter 5</i>	
PURIFICATION OF ALKALINE PROTEASES	92
Section A – Purification of Alkaline Protease from the Culture Supernatant of <i>Bacillus</i> sp. K 25	92
Section B – Purification of Alkaline Protease from the Bacterial Bran Extract of <i>Bacillus pumilus</i> K 242	99
<i>Chapter 6</i>	
CHARACTERIZATION OF ALKALINE PROTEASES	106
<i>Chapter 7</i>	
STUDIES ON SUITABILITY OF PROTEASES OF <i>BACILLUS</i> SP. K 25 AND <i>BACILLUS PUMILUS</i> K 242 AS DETERGENT ENZYMES	118
<i>Chapter 8</i>	
SUMMARY AND CONCLUSION	126
BIBLIOGRAPHY	132
