ACKNOWLEDGEMENT

At this moment the available words are extremely inadequate to express my deep and heartfelt gratitude towards the illustrious personality of my respected Supervisor Dr. S.P. Singh Reader-cum- Clinical Psychologist, Child Guidance Clinic, Department of Pediatrics, G.S.V.M., Medical College, Kanpur. I consider it an extraordinary privilege of mine to be able to work and study under his able guidance. Without his able guidance, expert supervision and valuable criticism it would have been impossible for me to do anything worthwhile in this field.

I owe a debt of gratitude to Professor J.R. Srivastava, Professor of Pediatrics, Medical College, Kanpur, not only for extending me necessary facilities for research in his formal capacity as Head of the Department but also for affectionately encouraging me to complete the work. I am also grateful to other staff members of the Department of Pediatrics for extending all cooperation.

I am also thankful to the Principal of G.S.V.M., Medical College for permitting me to carry out the present work. I am also thankful to Professor S.R.S. Chandel ex-Professor & Head of the Department of Statistics, Chandra Shekhar Azad Agriculture University of Kanpur for his valuable suggestions and guidance about the analysis of the results.

I pay my deep sense of gratitude and indebtedness to my parents for their constant encouragement and help during the period of research. I also express my sincere gratitude to Mrs. Sharda Singh for her encouragement for the work.

I am also thankful to Mr. Omkar Nath Dikshita who has energetically and efficiently carried out the typing.

(Asha Nigam)
