CONTENTS

CHAPTER 1
INTRODUCTION 1.38
1.1 Definitions and Importance of Climate 2
1.1.1 Definitions of Climate 3
1.1.2 The Importance of Climate 3
1.1.2.1 Climate as the key to regional differentiation 3
1.1.2.2 Climate and human affairs 3
1.2 The Interaction of Climate and Environment 4
1.2.1 Definition of Environment 4
1.2.2 The Impact of climate on Environment 5
1.2.2.1 Effect of individual climatic elements on human life 5
1.2.2.2 Effects of Climate on adaptation of ecosystem 7
1.2.2.3 Impact of Climate on bio geophysical environment 7
1.2.2.4 Impact of Climate on Agriculture 7
1.3 The Environmental impacts on climate 8
1.3.1 The effect of environmental impacts on climate - The Greenhouse effect and Global warming 8
1.3.2 Impact of industrial development and environmental degradation on Climate 10
1.3.2 Impact of urbanization and environmental degradation on climate 11
1.3.4 Impact of deforestation and environmental degradation on climate 13
1.4 Literature Review 15
1.4.1 The Asian Monsoon Circulation 15
1.4.2 Global Circulation Patterns and the Monsoon Rains in Myanmar 17
1.4.3 Role of mid latitude frontal systems intrusion in Myanmar 21
1.4.4 Influence of Tropical Storms 22
1.4.5 Geography and Environment: A Review 22
1.4.6 Environmental study of Myanmar - A Review 28

1.5 The Focus of the Study and the Choice of the Study Areas 29
1.5.1 The Focus of the Study 29
1.5.2 Choice of the Study Areas 30

1.6 Objectives of the Study 32
1.7 Hypotheses 33
1.8 Data Sources 33
1.9 Methodology 33
1.9.1 Distribution of rainfall 34
1.9.2 Seasonality of rainfall 34
1.9.3 Variability of rainfall 35
1.9.4 Analogue Method 35
1.9.5 Trends of rainfall 35
1.9.6 Regional Analysis 36

1.10 Organization of the Study 36
1.11 Limitations of the study 37

CHAPTER-II
MYANMAR: A PROFILE 39-116
Section A
PHYSICAL SETTING OF MYANMAR 39
2.1 Location, Size and Shape 39
2.2 Topography (Relief) 42
2.3 Drainage 48
2.4 Climate 49
2.5 Soils 64
2.6 Natural Vegetation
Section B

CLIMATIC SETTING OF MYANMAR

2.7 Latitude 73
2.8 Altitude 73
2.9 Land and Sea 76
2.10 Ocean currents 77
2.11 Mountain Barriers 81
2.12 Inter-tropical Convergence Zone 81
2.13 JetStream 86
2.14 Tropical Cyclones 86
  2.14.1 Cyclones in Bay of Bengal 86
  2.14.2 Pacific Cyclone 88
2.15 Western Disturbances 90
2.16 Thunderstorms 90

Section-C

SOCIO-ECONOMIC SETTING OF MYANMAR

2.17 Political History of Myanmar 91
2.18 Population growth 94
2.19 Population Density 96
2.20 Life Expectancy 97
2.21 Mortality Rate 98
2.22 Fertility 99
2.23 Migration 99
2.24 Age structure 99
2.25 Ethnic Diversity 100
2.26 Religion 100
2.27 Economy 106
Section D

2.28 Environmental Regions of Myanmar  
2.29 Summary

CHAPTER-III

RAINFALL VARIABILITY IN MYANMAR  
3.1 Introduction
   (a) Rainfall studies on Myanmar
   (b) Rainfall variability and agriculture

3.2 Variation in Annual Rainfall of Myanmar  
3.3 Rainfall with Abnormal conditions  
3.4 Rainfall Distribution  
   3.4.1 Spatial Distribution  
   3.4.2 The Seasonal (Temporal) Distribution

3.5 Trends of Rainfall by Accumulative Deviation  
3.6 Onset and withdrawal of the Southwest monsoon in Myanmar  
   3.6.1 General and normal dates of onset and withdrawal of monsoon in Myanmar

3.7 Summary

CHAPTER-IV

LAND USE ECOSYSTEMS AND ENVIRONMENTAL ISSUES IN MYANMAR: AN OVERVIEW  
4.1 Land Use and Resources in Myanmar
   4.1. a Nature in Myanmar Literature and Arts
   4.1. b Ecosystems and Natural Resources endowment of Myanmar

4.2 Land Cover Distribution and Assessment
4.3 Forest Resources

4.3.1 Timber resources

4.3.2 Plantation Resources

4.3.3 Bamboo Resources

4.3.4 Mangrove Forests Resource

4.3.5 Biodiversity status

4.4 Fishery sector and Marine resources

Section B

4.5 Environmental problems of Myanmar

4.5.1 Environmental issues relating to land and water resources

4.5.1.1 Low Production Potential Areas and Environmental Issues

(a) The Steeply Sloping Area (L1) and environmental problems
(b) Rolling and Undulating Upland Area (L2) and environmental problems
(c) Arid and Semi-Arid Area or L3 area and environmental problems

4.5.1.2 High Production Potential Areas (HPPA) and Environmental issues

(a) Water logging and Salinity
(b) Hazards of Monoculture
(c) Fertilizer Imbalances

4.5.1.3 Strategies for Sustainability in the Low Production Potential Areas

4.5.1.4 Strategies for Sustainability in High Production Potential Area

4.5.2 Other Major Environmental Problems in Myanmar

4.5.2.1 Soil Resources and their Problems

4.5.2.2 Impact of fertilizers and pesticides on environment

4.5.2.3 Marine Resources degradation and coastal degradation

(a) Coastal Erosion and Sedimentation
(b) Reef Degradation and Eutrophication

4.5.2.4 Mangrove Forest Degradation

4.5.2.5 Water Related Problems
4.5.2.6 Pollution Problems 284
   (a) Waste Management 285
   (b) Industrial Waste Water 286

4.6 Environmental Conservation and Management in Myanmar 287
4.6.1 National Environment Policy 290
4.6.2 Myanmar Forest Policy 290
4.6.3 Suggested Policies for the Promotion of Sustainable Development in the Forestry Sector 295

4.7 Two Sustainable Initiatives 297
4.7.1 Development of Ayeyavvady Mangrove Project 297
4.7.2 Desertification and the Dry Zone Greening project 301

4.8 Summary 305

CHAPTER-V
ENVIRONMENTAL DEGRADATION: THE ROLE OF WOOD FUEL USE IN TWO SELECTED RAINFALL REGIME REGIONS 308-396
5.1 Geographical Characteristics and rainfall variability in the Dry Zone and Ayeyawady Delta Region 308
5.2 Environmental problems of Dry Zone and Ayeyawady Delta Region 311
5.2.1 Land degradation 311
5.2.2 Desertification 314
5.2.3 Deforestation 320
5.2.4 Wood fuel Use in Myanmar 321
5.2.5 Alternatives to Wood fuel 326
5.2.6 Wood fuel crisis in Myanmar 329
5.2.7 The wood fuel crisis in Dry Zone and Ayeyawady Delta 331
Section A

5.3 Case Study of Dry Zone Area: Central Myanmar Dry Zone, Sagaing Division (Sagaing, Monywa and Shwebo Districts) 332

5.3.1 Forest cover and Land use Pattern of Study Area 332
5.3.2 Per Capita Forest and Population Density 333
5.3.3 Wood fuel Consumption 334
5.3.3.1 Household use 335
5.3.3.2 Institutional and Community Use 336
5.3.3.3 Commercial Use 336
5.3.3.4 Small scale cottage and home industrial use 337

5.4 Wood fuel Substitutes 338

5.4.1 Agro-residues 339
5.4.2 Wood Waste 340
5.4.3 Animal Waste 341
5.4.4 Coal 341

5.5 Production, Marketing of Wood fuel and Wood fuel Substitutes 341

5.5.1 Production of Wood fuel 341
   (a) Natural Forest 342
   (b) Forest Plantations or Woodlots 342
   (c) Non-Forest Area 343
5.5.2 Marketing of wood fuel and wood fuel substitutes 344

5.6 Remedial Measures to Ameliorate Wood fuel Shortage 347

5.6.1 Establishment of Forest Plantations 347
5.6.2 Conservation of the natural forest 348
Section B

5.7  A Case study of Ayeyawady Delta region, (Kyunyarshay, Yaedwingon and Theinlargutsu villages) 350

5.7.1  Background information of the study area 350
5.7.2  Objectives of the Micro-level village study 352
5.7.3  Methodology 352
5.7.3.1  Sampling design for households 352
5.7.3.2  Estimation of tree density on non-forest areas 353
5.7.4  Study of Kyunyarshay village 353
5.7.4.1  Profile of Kyunyarshay village 353
5.7.4.2  Land use 354
5.7.4.3  Social and economic situation 354
5.7.4.4  Survey of households 355
5.7.5  Study of Yaedwingon village 359
5.7.5.1  Profile of Yaedwingon village 359
5.7.5.2  Land use status 359
5.7.5.3  Social and economic situation 360
5.7.5.4  Survey and households 361
5.7.6  Study of Theinlargutsu village 363
5.7.6.1  Profile of Theinlargutsu village 364
5.7.6.2  Land use status 364
5.7.6.3  Social and Economic Situation 364
5.7.6.4  Survey of households 365
5.7.7  Wood fuel demand and supply situation: A comparison of the three villages 369
5.7.8  Future Prospect for Supply and Demand Situation of the Study Area 369

5.8  Summary 371
