4.7 Mean values and standard deviations of total reading and writing scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.8 Summary of repeated ANOVA of total reading and writing scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.9 LSD test for significance between pairs of mean scores of total reading and writing of standard I higher experimental group.

4.10 LSD test for significance between pairs of mean scores of total reading and writing of standard I higher control group.

4.11 Mean values and standard deviations of total reading and writing scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.12 Summary of repeated ANOVA of total reading and writing scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.13 LSD test for significance between pairs of mean scores of total reading and writing of standard I lower experimental group.

4.14 LSD test for significance between pairs of mean scores of total reading and writing of standard I lower control group.

4.15 Mean values and standard deviations of total reading and writing scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.16 Summary of repeated ANOVA of total reading and writing scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.17 LSD test for significance between pairs of mean scores of
4.18 LSD test for significance between pairs of mean scores of total reading and writing of standard III control group.

4.19 Mean values, standard deviations and percentages of vocabulary scores in post, parallel and retention tests of standard I higher level students with mental retardation.

4.20 Summary of ANCOVA of vocabulary scores in post, parallel and retention tests of standard I higher level students with mental retardation.

4.21 Mean values, standard deviations and percentages of vocabulary scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.22 Summary of ANCOVA of vocabulary scores in post, parallel, and retention tests of standard I lower level students with mental retardation.

4.23 Mean values, standard deviations and percentage of vocabulary scores in post, parallel and retention tests of standard III students with mental retardation.

4.24 Summary of ANCOVA of vocabulary scores in parallel post and retention tests of standard III students with mental retardation.

4.25 Mean values and standard deviations of vocabulary scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.26 Summary of repeated ANOVA of vocabulary scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.27 LSD test for significance between pairs of mean scores of vocabulary of standard I higher experimental group.
4.28 LSD test for significance between pairs of mean scores of vocabulary of standard I higher control group.

4.29 Mean values and standard deviations of vocabulary scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.30 Summary of repeated ANOVA of vocabulary scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.31 LSD test for significance between pairs of mean scores of vocabulary of standard I lower experimental group.

4.32 LSD test for significance between pairs of mean scores of vocabulary of standard I lower control group.

4.33 Mean values and standard deviations of vocabulary scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.34 Summary of repeated ANOVA of vocabulary scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.35 LSD test for significance between pairs of mean scores of vocabulary of standard III experimental group.

4.36 LSD test for significance between pairs of mean scores of vocabulary of standard III control group.

4.37 Mean values, standard deviations and percentages of reading comprehension scores in post, parallel and retention tests of standard I higher level students with mental retardation.

4.38 Summary of ANCOVA of reading comprehension scores in post, parallel and retention tests of standard I higher level students with mental retardation.

4.39 Mean values, standard deviations and percentages of
reading comprehension scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.40 Summary of ANCOVA of reading comprehension scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.41 Mean values, standard deviations and percentage of reading comprehension scores in post, parallel and retention tests of standard III students with mental retardation.

4.42 Summary of ANCOVA of reading comprehension scores in post, parallel and retention tests of standard III students with mental retardation.

4.43 Mean values and standard deviations of reading comprehension scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.44 Summary of repeated ANOVA of reading comprehension scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.45 LSD test for significance between pairs of mean scores of reading comprehension of standard I higher experimental group.

4.46 LSD test for significance between pairs of mean scores of reading comprehension of standard I higher control group.

4.47 Mean values and standard deviations of reading comprehension scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.48 Summary of repeated ANOVA of reading comprehension scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.
4.49 LSD test for significance between pairs of mean scores of reading comprehension of standard I lower experimental group.

4.50 LSD test for significance between pairs of mean scores of reading comprehension of standard I lower control group.

4.51 Mean values and standard deviations of reading comprehension scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.52 Summary of repeated ANOVA of reading comprehension scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.53 LSD test for significance between pairs of mean scores of reading comprehension of standard III experimental group.

4.54 LSD test for significance between pairs of mean scores of reading comprehension of standard III control group.

4.55 Mean values, standard deviations and percentage of phonological awareness scores in post, parallel and retention tests of standard I higher level students with mental retardation.

4.56 Summary of ANCOVA of phonological awareness scores in post, parallel and retention tests of standard I higher level students with mental retardation.

4.57 Mean values, standard deviations and percentages of phonological awareness scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.58 Summary of ANCOVA of phonological awareness scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.59 Mean values, standard deviations and percentages of
phonological awareness scores in post, parallel and retention tests of standard III students with mental retardation.

4.60 Summary of ANCOVA of phonological awareness scores in post, parallel and retention tests of standard III students with mental retardation.

4.61 Mean values and standard deviations of phonological awareness scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.62 Summary of repeated ANOVA of phonological awareness scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.63 LSD test for significance between pairs of mean scores of phonological awareness of standard I higher experimental group.

4.64 LSD test for significance between pairs of mean scores of phonological awareness of standard I higher control group.

4.65 Mean values and standard deviations of phonological awareness scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.66 Summary of repeated ANOVA of phonological awareness scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.67 LSD test for significance between pairs of mean scores of phonological awareness of standard I lower experimental group.

4.68 LSD test for significance between pairs of mean scores of phonological awareness of standard I lower control group.

4.69 Mean values and standard deviations of phonological awareness scores in pre, post, parallel and retention tests of standard III experimental and control groups.
4.70 Summary of repeated ANOVA of phonological awareness scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.71 LSD test for significance between pairs of mean scores of phonological awareness of standard III experimental group.

4.72 LSD test for significance between pairs of mean scores of phonological awareness of standard III control group.

4.73 Mean values, standard deviations and percentages of reading fluency scores in post, parallel and retention tests of standard I higher level students with mental retardation.

4.74 Summary of ANCOVA of reading fluency scores in post, parallel and retention tests of standard I higher level students with mental retardation.

4.75 Mean values, standard deviations and percentages of reading fluency scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.76 Summary of ANCOVA of reading fluency scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.77 Mean values, standard deviations and percentages of reading fluency scores in post, parallel and retention tests of standard III students with mental retardation.

4.78 Summary of ANCOVA of total reading fluency scores in post, parallel and retention tests of standard III students with mental retardation.

4.79 Mean values and standard deviations of reading fluency scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.80 Summary of repeated ANOVA of reading fluency scores in pre, post, parallel and retention tests of standard I higher
experimental and control groups.

4.81 LSD test for significance between pairs of mean scores of reading fluency of standard I higher experimental group.

4.82 LSD test for significance between pairs of mean scores of reading fluency of standard I higher control group.

4.83 Mean values and standard deviations of reading fluency scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.84 Summary of repeated ANOVA of reading fluency scores in pre, post, parallel and retention tests of standard 1 lower experimental and control groups.

4.85 LSD test for significance between pairs of mean scores of reading fluency of standard 1 lower experimental group.

4.86 LSD test for significance between pairs of mean scores of reading fluency of standard 1 lower control group.

4.87 Mean values and standard deviations of reading fluency scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.88 Summary of repeated ANOVA of reading fluency scores in pre, post, parallel and retention tests of standard III experimental and control groups.

4.89 LSD test for significance between pairs of mean scores of reading fluency of standard III experimental group.

4.90 LSD test for significance between pairs of mean scores of reading fluency of standard III control group.

4.91 Mean values, standard deviations and percentages of writing scores in post, parallel and retention tests of standard 1 higher level students with mental retardation.

4.92 Summary of ANCOVA of writing scores in post, parallel and
retention tests of standard I higher level students with mental retardation.

4.93 Mean values, standard deviations and percentages of writing scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.94 Summary of ANCOVA of writing scores in post, parallel and retention tests of standard I lower level students with mental retardation.

4.95 Mean values, standard deviations and percentages of writing scores in post, parallel and retention tests of standard III students with mental retardation.

4.96 Summary of ANCOVA of writing scores in post, parallel and retention tests of standard III students with mental retardation.

4.97 Mean values and standard deviations of writing scores in pre, post, parallel and retention tests of standard I higher level experimental and control groups.

4.98 Summary of repeated ANOVA of writing scores in pre, post, parallel and retention tests of standard I higher experimental and control groups.

4.99 LSD test for significance between pairs of mean scores of writing skills of standard I higher experimental group.

4.100 LSD test for significance between pairs of mean scores of writing skills of standard I higher control group.

4.101 Mean values and standard deviations of writing scores in pre, post, parallel and retention tests of standard I lower level experimental and control groups.

4.102 Summary of repeated ANOVA of writing scores in pre, post, parallel and retention tests of standard I lower experimental and control groups.

4.103 LSD test for significance between pairs of mean scores of
Writing of standard I lower experimental group.

4.104  LSD test for significance between pairs of mean scores of writing of standard I lower control group.  257

4.105  Mean values and standard deviations of writing scores in pre, post, parallel and retention tests of standard III experimental and control groups.  258

4.106  Summary of repeated ANOVA of writing scores in pre, post, parallel and retention tests of standard III experimental and control groups.  259

4.107  LSD test for significance between pairs of mean scores of writing skills of standard III experimental group.  260
