List of Tables

CHAPTER I

Table. 1.1. Acute and Chronic Side Effects of Radiotherapy
Table. 1.2. Acute Radiation syndromes (ARS)
Table 1.3: Types of damages to DNA by ionizing radiation
Table 1. 4: Alleic variation of GPX
Table 1.5: List of Radioprotectors
Table 1.6: Medicinal properties of mushroom species
Table.1.7. Antitumor Polysaccharides from mushrooms

CHAPTER 2

Table 2.1. Phytochemical screening of the aqueous extract.
Table 2.2. The Rf values of individual sugars by paper and thin layer chromatography.

CHAPTER 3

Table 3.1. The half inhibitory concentration (IC₅₀) value of PPC-Pr Complex, aqueous extract and Standard antioxidants.

CHAPTER 4.B.I.

Table 4B.1.1. Effect of PPC-Pr Complex on blood GPX activity of animals after exposure to irradiation.
Table 4B.1.2. Effect of PPC-Pr Complex on blood SOD activity of animals after exposure to irradiation.
Table 4B.1.3. Effect Of PPC-Pr Complex On Blood CAT Activity Of Animals After Exposure To Irradiation.
CHAPTER 4.B.2.

Table 4.B.2.1. Effect of PPC-Pr Complex on tissue GPX activity of animals after exposure to 4 gy γ irradiation.

TABLE 4.B.2.2. Effect of PPC-Pr Complex on tissue SOD activity of animals after exposure to 4 gy γ irradiation.

TABLE 4.B.2.3. Effect of PPC-Pr Complex on tissue CAT activity of animals after exposure to 4 gy γ irradiation.

CHAPTER 4.B.3.

TABLE 4.B.3.1. Effect of PPC-Pr Complex on mucosal GPX activity of animals after exposure to irradiation.

Table 4.B.3.2. Effect of PPC-Pr Complex on mucosal SOD activity of animals after exposure to irradiation.

Table 4.B.3.3. Effect of PPC-Pr Complex on mucosal CAT activity of animals after exposure to irradiation.

CHAPTER 5

Table 5.1. Effect of PPC-Pr Complex on micronuclei induction by radiation in mouse bone marrow.

Table 5.2. Effect of PPC-Pr Complex on the induction of chromosomal aberrations in mouse bone marrow by whole body γ irradiation (4 Gy).

CHAPTER 6

Table 6.1 Effect of PPC-Pr Complex on blood parameters by the subacute toxicity studies.

Table 6.2 Effect of PPC-Pr Complex on the activity of liver and kidney function enzymes.
