ACKNOWLEDGMENT

I am extremely indebted to Dr. Ram Iqbal Singh, Professor of Agricultural Economics, Division of Agricultural Economics and Statistics, U.P. Institute of Agricultural Sciences, Kanpur, who very kindly consented to act as supervisor of this research project. The great encouragement and inspiration, ungrudging guidance and a good deal of affection were alone responsible for sustaining my enthusiasm to complete the research work.

I am very much grateful to Dr. S. P. Dhondyal, former Agricultural Economist and Retired Scientist (I.C.A.R.), U.P. Institute of Agricultural Sciences, Kanpur, for the comments and constructive criticisms I received from him during the course of the investigations and preparation of this manuscript. I owe my gratitude to Dr. Rosham Singh, Principal, R.B.S. College, Agra, that he despite of his rather awful schedule of engagements helped me in finalising the synopsis and in re-shaping the contents as well as spirit of this dissertation.

I wish to record with thanks the valuable comments obtained on the earlier draft of this Thesis from Dr. G. N. Singh, Senior Agricultural Economist, State Co-operative and Land Development Bank, Lucknow, and Dr. D. S. Shukla, Assistant Professor of Agricultural Economics, U.P. Institute of Agricultural Sciences, Kanpur.

I am immensely indebted to Dr. Daroga Singh, Director, Sarvsri O.P. Dutta, Programmer, S.C. Rai and Padam Singh, Assistant Professors, Institute of Agricultural Research Statistics (I.C.A.R.), New Delhi, for the Computer helps and fruitful discussions on functional analysis which helped me in generalizing the facts. Dr. M. N. Das, former Director of the above Institute, deserves special thanks for suggesting a suitable research design for this study.

With a word of grief, I acknowledge with thanks the inspiration and helps received from the Late Dr. T. P. S. Chawdhari, Ex-Professor, Division of Agricultural Economics, I.A.R.I., New Delhi, who vivified me to complete the work till his last breath. I am also grateful to Dr. A. S. Sirohi, Professor, and Dr. Dayanath Jha, of Division of Agricultural Economics, I.A.R.I., New Delhi, for their valuable helps to the analytical approach of the problem.

The venture to undertake the research project was virtually impossible without any financial assistance. Therefore, the Senior Research Fellowship awarded to me in advance by the Indian Council of Agricultural Research, New Delhi, is gratefully acknowledged. I also take this opportunity to thank Dr. Dharmpal Singh, Director, U.P. Institute of Agricultural Sciences, Kanpur, for providing necessary facilities to complete the work.

I also thank Mr. Bhadra Prakash Kapil, Project Officer, IADP, Aligarh, for providing necessary informations and lodging facilities to conduct the survey. Finally, I can not help acknowledging my respondents of the district Aligarh who besides, disclosing the relevant informations, enabled me to enjoy their folk ways, mores, customs and the holy 'Braj' language of the Great Lord Krishna.

Dated: Kanpur, Aug. 31, 1974: (SURENDRA NATH RAI)
