ACKNOWLEDGEMENT

First of all I want to immensely thank the Divine for giving me constant invisible Support, Strength, Confidence and Good health to complete this challenging endeavour and to face the many constraints during the entire journey to reach at this destination of the achieving the degree of Doctorate.

Secondly, I would like to offer my genuine and deepest thanks to my Guide Dr. Prabha Rastogi for her marvellous support, endless knowledge and also for giving me guidance with patience by solving queries about my research topic and for encouraging me in the developing my thoughts and helping me to complete my thesis.

I feel very proud to think about the title of Doctor will be attached to my name and this brings an enormous feeling for the achievement in my teaching profession of 23 years with M. K. Sanghvi College of Commerce and Economics, Juhu, Vile Parle (West), Mumbai -49.

I would like to thank my beloved Principal Dr.(Mrs) Krushna Gandhi for continuously motivating me, frequently enquiring about the progress of my work from the time of the enrolment of Ph.D. till the completion of my thesis.

Of course, without the shower of blessing of my Parents and my Mother - In - Law it would not have been possible to complete my long journey of doing research work. I greatly appreciate my beloved children Hem and Helly for their help in doing work other than Research.

My special heartfelt thanks to my dear friend Archana Singh for encouraging me by giving advice and continuously supporting me throughout my journey.

I am also thankful to the Mathematics Department as well as my college staff for their co-operation during my research work.

Finally, it is impossible to name everyone whom I would like to communicate thanks and I believe that those not named will accept my implied thanks.

I conclude by saying that the work done in this thesis is not a single handed work; it carries the direct and the indirect support of so many members without whose help this would not have reached its final goal.
