ACKNOWLEDGEMENTS

I wish to express my profound sense of gratitude to my Guru Dr. G. Anilkumar, Senior Professor, School of Biotechnology, chemical and Biomedical Engineering, VIT University, Vellore, Tamil Nadu (formerly, Head, Post Graduate Department of Zoology, Sree Narayana College, Kannur), for his supervision and guidance, and for the continuous support given to me throughout this endeavour. I profusely thank him for having spared his time to discuss with me several questions and ideas that evolved in my mind from time to time, and for having initiated and stimulated my research interests.

I thank Dr. P. C. Salim, Principal, Sree Narayana College, for his encouragement, and Dr. M.V. Vasanda kumar, Head of the Post Graduate Department of Zoology and Research Centre, Sree Narayana College, Kannur for the provision of facilities. I also extend my thanks to the former principals of Sree Narayana College, Kannur, Prof K. Balakrishnan and Prof. K. P. Mohanan, for their support.

I have great pleasure to thank my closest companion Dr. K. Sudha, Reader, Post Graduate of Department of Zoology, Sree Narayana College, Kannur, for her constant encouragement and continuous support all the way through, which enabled me to successfully complete this work. I owe my deepest gratitude to the research group of our laboratory especially Mrs. N.T. Supriya, Mr. K.V. Krishnakumar, Mr. P.T.Aneesh, Mr. Prasoon E Raheem, Dr. Baby Joseph, Dr. Chithra Parapurath and Dr. Shyla Suganithi for broadening my views about what is important and interesting in science.
I would also like to thank Dr. P. A. Valsalakumari, Dr. Aravindan Tharemmal, Dr. K. Anil, Dr. Sheela Kinathy, Miss. Rekha Bhaskar, Miss. Preetha, Miss. Ramitha, Mr. Lakshmanan, Mr. Ramesan and Mr. Ranjith of the Department, for their support in different ways.

I owe my gratitude to Dr. B. K. Chandrasekhar Sagar, Assistant Professor, Dr. N. Gayathri, Additional Professor, Mrs. B. N. Hemavathy and Mr. Ramesh, of the Department of Electron Microscopy, National Institute of Mental Health and Neurosciences (NIMHANS), Bangalore, for the provision of the Electron Microscopic facility and excellent technical assistance.

Thanks are due to the Director, Agricultural Research Station, Pilicode, Kasaragod, Kerala for providing me with meteorological data for this work.

I am thankful to Dr Ernest S. Chang, Professor, Bodega Marine Laboratory, University of California USA, for his generous gift of the ecdysteroid antiserum produced by Dr. W. E. Bollenbacher (University of North Carolina, Chapel Hill, USA), without which the radioimmunoassay pursued in this work would not have been possible. I am also grateful to Dr Ramadasan Kuttan, Amala Cancer Research Institute, Thrissur, for providing the liquid scintillation counter facility.

I express my sincere for gratitude to the University Grants Commission (Government of India, New Delhi), for providing me with a Teacher Fellowship under the FIP Scheme, without which this study would not have been possible.
It is my pleasure to thank my colleagues of the Department of Zoology, Nehru Arts and Science College, Kanhangad for their support during the tenure of my fellowship. Last but not the least, I am grateful to my husband, Mr. T. K. Muralidharan, for his invaluable help to start my research, for the wonderful company in sampling work, and for the immense moral support extended to me all the way through. Special thanks to my children Manu and Shinu for sharing all hardships incidental to my research work. And I am thankful to each and everyone involved in this thesis work.

SYAMA. V. P
