Acknowledgements

Bowing before God Almighty for all the blessings, I present this thesis.

I would like to place on record my profound debt to my supervising teacher Dr. K.C George, Associate Professor, Department of Physics, S.B College, Changanassery for his esteemed guidance, insightful suggestion, keen interest, constant encouragement, and above all his gentle approach and unfailing patience. His uncompromising analytical approach, proficiency and sharp outlook inspired me considerably. I express my sincere gratitude to him.

I acknowledge my indebtedness to Rev. Dr. Tomy Padinjaraeveetil, Principal and Rev. Fr. Reji Plathottam, Bursar, S.B College, Changanassery for providing the facilities to carry out the research work. I also extend my sincere thanks to the Head and all teaching faculty of the Physics department of S.B College, Changanassery for their valuable help and support.

I am greatly indebted to my colleagues Mr. Anoop Chandran, Mrs. Jiji Koshy and Mrs. Pournami Vijayan for their fruitful discussion and intellectual advice that helped me to improve the quality of this thesis. I deeply thank them for their constant encouragement, help and co-operation. I also wish to express my gratitude to every research scholars in the physics family of S. B College especially Jijoy P Mathew and Jess Jacob.

I would like to acknowledge the financial support of KSCSTE, Kerala. My sincere thanks to AIIMS-NewDelhi, SAIF-CUSAT and DAE-Indore for carrying out the sample analysis. I also extend my special thanks to Central Instrumentation facility (CIF), S.B College, Changanassery where sample preparation and major part of the sample analysis were carried out.
I am thankful to Dr. George Koshy and Prof. John Kurien for correcting the first draft of the manuscript and to Dr. Lata Marina Varghese for proof reading the thesis and providing valuable feedback. A word of thanks to Dr. Mary Alex, Scientist, BARC, Mumbai who provided access to scientific papers from different journals.

I remember with immense gratitude to all my teachers and I would like to thank all my friends and all well wishers who had helped me in several ways on many occasions.

Most of all, I would like to extend my special thanks to my dear parents for their silent prayers, love, care and endless support which helped me to overcome all obstacles during the tenure of this work. My brother, in-laws and relatives have supported me throughout and I thank them for the understanding shown towards me.

I am deeply and forever indebted to my loving husband Mr. Binoy T Thomas who has been a great source of strength all through this work. This thesis would never have been a reality had it not been for the tolerance, prayers and whole hearted support from him. I also thank my beloved daughter Aan Susan Binoy for being so calm and patient with me.

Finally, I would like to thank everybody who was important to the successful realization of this thesis as well as expressing my apology that I could not mention personally one by one.

Soosen Samuel M
