ACKNOWLEDGEMENTS

I wish the following words could effectively express my gratitude and thankfulness to all those special and lovely people who have played an integral role not only in the shaping of the dissertation but also my life. I would like to convey my heartfelt gratitude to my mentor and supervisor, Prof. M. Hariprasad, whose valuable guidance and constant support has not only enriched my academic progress but also played a significant role in my intellectual growth. Your dedication, strong belief in our work, patience and the involvement in the dissertation has always inspired and motivated me, especially during the difficult and trying times in the course of the dissertation. Without your support, encouragement, and appreciation, I would not have been able to complete the dissertation.

In the same note, I would especially like to thank Dr. Indranil Dutta, my advisory committee. You have always been a friend, philosopher and guide to me. I sincerely owe you for the timely advices, prompt and valuable feedbacks and the updates about different academic events, conferences and workshops that has enriched my knowledge in this field and also helped me to be a better researcher.
