ACKNOWLEDGEMENT

I am deeply indebted and would like to express my heartiest gratitude to my supervisor Dr. P.N. Tandon, Professor and Head, Department of Mathematics, Harcourt Butler Technological Institute, Kanpur, who has guided me throughout the preparation of this thesis by making constructive suggestions and giving me valuable advice and most inspiring encouragement.

The work reported in this thesis was undertaken during the tenure of the U.G.C. fellowship.

I further take the opportunity to express my deep sense of gratitude to Prof. J.N. Kapur, Head, Deptt. of Mathematics, I.I.T. Kanpur and Prof. K.M. Srivastava, Deptt. of Mathematics, University of Roorkee, Roorkee for encouragement.

Last, but not the least I tender my sincere thanks to Dr. S.D. Shukla, Director, H.B.T.I., Kanpur, for constant inspiration and encouragement and for providing the facilities for the research at the Institute.

Thanks are also due to Sri V.P. Kaushish for typing the manuscript of the thesis nicely.

( VINOD KUMAR KATIYAR )
