ACKNOWLEDGEMENT

A research work involves a lot of hard work, travel, intensive reading and indomitable spirit to know the unknown facts from different aspects and viewpoints based on previous studies so as to arrive at a point of accuracy, reliability and acceptability. In addition, the credit of representing the result of the research in a very lucid language that can be comprehended by the general readers including the voracious readers is important. It also involves, the sympathy, soft attitude and tenacity of readers as it is a great factor responsible for augmenting the process and comparison of the research work. In absence of all these factors a research scholar can never be successful.

First and foremost, I deeply thank the "Almighty" for giving me what I have and for his everlasting blessings and internal strength. It will not be out of place to mention here the overall support of my family, which infused in me a basic analytical sense, since my childhood and developed in me a lot of zeal, perseverance and dexterity to undertake an arduous task like doing a research. Armed with these basic attributes I dared to tread the uneven path of research work. Initially my family encouraged me to undertake the strenuous job of research and supported me throughout my research studies.

My parents Dr. N.U. Siddiqui and Mrs. Shahnaz Naseer played a pivotal role in providing me the moral support throughout the research
process.

I convey my deepest regards to my teachers Mrs. Rani Bhatia, Ms. A. Mcgee (Senior Secondary Commerce teachers) Dr. S.N. Maheshwari, Prof. Javed Alam Khan, Prof. Azhar Kazmi (Teachers of my graduation and post graduation AMU, Aligarh) from whom I got the basic knowledge of commerce and who laid the plinth of my future destination.
