I most sincerely express my sense of gratitude to my career mentor Dr. Anuradha Mishra for her unstinted guidance, consistent motivation, healthy criticism and thought provoking discussion. She proved that luck is opportunity availed and success is luck exploited. Association with her helped me grow in my character and personality dimensions. I deeply thank you "Ma'am" for your valuable suggestions from time to time that helped me to explore innovativeness in executing the chemistry. Be it a reaction inside the lab, or a nagging personal problem outside the lab, you have always been there to help.

I am grateful to Padamshree Prof. S.S.Katiyar, Honorable Vice-Chancellor, C.S.J.M. University, Kanpur for being a constant source of inspiration and providing the best infra-structural facilities for this research. I am obliged to financial assistance of CSIR and express the sincere thanks for the same.

It is my privilege to thank Prof. Y.D.Vankar, Head, Department of Chemistry, IIT KANPUR and Dr. Padma Vankar for supporting me at the beginning of my research career.

I take it my privilege to thank Head of the Institute and all the respected faculty members of the Department of Chemistry, UIET, for their timely help in various aspects.

I extend my grateful thanks to Director, DMSRDE for allowing me to pursue my research work. I acknowledge the extreme utility and importance of many informal discussions and fruitful suggestions with Dr. Sarfaraz Alam (Head, Polymer Division, DMSRDE), Dr. A.K. Saxena...
I sincerely thank Nayabji, Swatid for recording the NMR and IR spectra of my samples. I am thankful to all the staff members of RSIC, CDRI, Lucknow for recording the C, H, N analysis of my samples. Special thanks to Kanaujiaji, Atulji, Avdeshji, Shuklaji, Bajpaiji and Pankajji for their timely help and co-operation. I also thank Ahmadji for giving the present shape of my thesis. I thank all the supporting staff members of this department and the institute.

My humble and sincere thanks to all of my respected school teachers. I would like to place on record my sense of gratitude to Dr. Joseph Daniel and Dr. A. Mitra, my college teachers, for making me to involve deeply in chemistry and inspiring me and cultivating enthusiasm to learn and think independently.

This is the time to specially thank Iffat di, Jyoti di, Neeraj for helping me at every stage of my research work and for extending their helping hand whenever it was needed the most. I sincerely acknowledge here the help rendered by my friends Amit, Satyajeet, Sukhdeep di, Farhana di for their valuable help and support during my research work.

I greatly value the help rendered to me by my senior and labmates Rashmi di, Dr. Alpa Yadav, Malvika, Annu and Sunita. I also wish to express my appreciation and thanks to my friends, Archana, Pushpa, Bhawana, Pankaj, Akhilesh, Priti, who despite being from other streams,
wholeheartedly cooperated in proof reading of my thesis and its processing.

I whole-heartedly thank my brothers and sister-in-laws for their ever-willing help and constant encouragement during my research tenure.

Last but not the least, I bow down my head before my beloved parents Smt. Lalita Daswal and Shri S.K. Daswal, whose blessings have solely contributed in completion of my thesis. Without their care, love, sacrifice, support, prayers, wishes and motivation, this study would not have seen the light of the day.

Above all, most sincere thanks to GOD - the most benevolent the most merciful...

Swati Daswal
