CHAPTER-2
SOLUTION OF FUZZY TRANSPORTATION PROBLEMS THROUGH OPTIMIZATION TECHNIQUES 44–61

2.1 Introduction 44
2.2 Solution of Fuzzy Transportation Problem 46
2.3 Fuzzy Optimization Technique 48
2.4 Numerical Illustration 50
2.5 Development of Fuzzy Optimization Technique 55
2.6 Conclusion 61

CHAPTER-3
OPTIMAL SOLUTION OF MULTI-OBJECTIVE TRANSPORTATION PROBLEM WITH FUZZY DEMAND AND FUZZY PRODUCT BASED ON LEVEL (λ, 1) AS FUZZY NUMBERS 63–78

3.1 Introduction 63
3.2 Multi-objective Interval Transportation Problem 65
3.3 Formulation of Crisp Constraint 69
3.4 Types of Multi-objective Interval Transportation Problems 70
3.5 Fuzzy Programming Techniques for Solving the Multi-Objective Transportation Problem 72
3.6 Numerical Illustration 74
3.7 Conclusion 78
CHAPTER-4
FUZZY COMPROMISE SOLUTION FOR TRANSPORTATION AND TRAFFIC PROBLEMS  80–97

4.1 Introduction 80
4.2 Notations 83
4.3 Mathematical Formulation of the Model 85
4.4 Method for Optimal Solution 87
4.5 Fuzzy Compromise Programming 88
4.6 Vehicle Routing and Traffic Signal Control Problem for Transportation 92
4.7 Fuzzy Traffic Control for Transportation Problem 94
4.8 Conclusion 97

CHAPTER-5
OPTIMAL FUZZY APPROACH : TRANSPORTATION MODELLING  98–115

5.1 Introduction 98
5.2 Fuzzy logic system for transportation modelling 99
5.3 Solving Complex Transportation Modelling by Fuzziness 101
5.4 Computing with Artificial Bees: Case Study of Travelling Salesman Problems 104
5.5 Solution of Travelling Salesman Problem by Bee System 105
5.6 Fuzzy Ant System 108
5.7 Fuzzy Bee System for Decision Making 110
5.8 Conclusion 115
CHAPTER-6
FUZZY THEORETIC APPROACH FOR TRANSPORTATION PROBLEMS BASED ON FUZZY OPTIMIZATION 116–139

6.1 Introduction 116
6.2 Knowledge Base Transportation Problems 118
6.3 Fuzzy Expert System 121
6.4 Void in the Classical Theory Approach 123
6.5 Fuzzy Inference and Optimization for Optimal Value 125
6.6 Solution of Fuzzy Programming Problem by Evolutionary Algorithms 131
6.7 Fuzzy Linear Programming in Supply Production Problem 134
6.8 Conclusion 139

CHAPTER-7
FUZZY LINEAR PROGRAMMING TO CAPACITATED TRANSPORTATION PROBLEMS WITH FUZZY CONSTRAINTS 140–154

7.1 Introduction 140
7.2 Notations 143
7.3 Mathematical Model of Fuzzy Multi-Objective Transportation Problem 144
7.4 Optimized Value of Objective Function 148
7.5 Minimum Cost Capacitated Transportation Problem 150
7.6 Numerical Illustration 152
7.7 Conclusion 154
