ACKNOWLEDGEMENT

First and foremost I thank God for providing His grace and strength to achieve this work.

I express my deep sense of sincere gratitude to my research supervisor Dr. D. Devaraj, Sr.Prof/EEE & Dean-Planning and Development, Kalasalingam University, for his guidance. Words fall short to express my indebtedness and gratitude to him, for his valuable guidance, support, patience, constant appreciation and encouragement.

I would like to thank my research joint-supervisor Dr. S. Sakthivel, Sr.Prof/EEE, Principal, P.S.N.A College of Engineering and Technology, Dindigul for his valuable suggestions. I am deeply grateful to him for both of his open-mindedness and earnest.

I would like to thank the management and officials of Kalasalingam University for providing support for doing the research work.

Words are not sufficient enough to express the constant encouragement, love and affection of my parents, in-laws, sister, brother in-law and their families, co-research scholars, friends shown on me. I would not have come up to this stage without their support and everlasting blessings. No words can explain the support, care, love and encouragement of my husband and my son. Special mention is required to thank them for their co-operation and understanding, failing which it would not have been possible to carry out this work.

K.PUNITHA
