

## ACKNOWLEDGEMENT

I wish to express my great debt of gratitude to my supervisor, **Dr. R. Ramanujam**, Professor of Power Systems, Anna University, for the valuable guidance, advice and help during this research. To him, I owe the most.

I thank **Dr. R. Arumugam**, Head of the Department, Electrical and Electronics Engineering, Anna University, for the support rendered by him for the completion of my thesis.

I am much obliged to **Dr. K. Murali** Department of Physics, Anna University, for his valuable discussions and suggestions.

I express my profound gratitude to the Doctoral Committee members **Dr. S. Thiruvengadam**, Professor, Department of Electrical and Electronics Engineering, SVCE and **Dr. S. Velusami**, Professor, Electrical Department, Annamalai University, for their invaluable suggestions and timely help.

I thank the staff of the Department of Electrical and Electronics Engineering, especially **Dr. R. P. Kumudini Devi**, Assistant Professor, for their consistent support and help.

I am extremely grateful to **Dr. Kassim A. Ali Al-Anbarri**, Professor, Baghdad University, Iraq, for his many useful discussions and **Dr. Hermann W. Dommel**, Professor, University of British Columbia, for providing the EMTP data file for practical ferroresonance case study.

I have no words to express my gratefulness to my parents and friends for their unfailing support and encouragement. Without them this work would not have been completed.

**R. SARAVANASELVAN**
