PUBLICATIONS

1. "Synthesis characterization and application of coating based on epoxy novolac and liquid rubber blend".
   

2. "Performance properties of the blends based on O-cresol based epoxidised novolac type phenolic resin and carboxylic-terminated polybutadiene (CTPB)"
   
   *European Coating Journal Nov. 2009, Published by Cornelia Fischer, Germany.*

3. "Preparation of Blends of Epoxidised novolac resin and carboxylic terminated polybutadiene (CTPB) liquid rubber and evaluation of their physico-chemical characteristics".
   

4. Paper presented, "Synthesis and characterization of epoxidised novolac and their blends with CTPB".
   
   *In National Seminar on "Emerging Trends in Chemical Sciences" held at D.B.S. College, Kanpur, Dec. 5-6, 2007.*
